

Standards of Practice for Medical Interpreters

Pre-conference:

When possible hold a Pre-conference to determine the provider's goal for the medical interview.

Introduction:

Formally introduce yourself to both the patient and provider.

Referrals:

The interpreter is able to refer the patient to the appropriate support services rather than assuming the social work role.

Positioning:

The seating arrangement will be adjusted to ensure the most interaction between the provider and patient.

Privacy:

Allow privacy as dictated by the appointment type.

Body Cues:

Observe and report any body language cues that might not be observed by the provide.

Communication Modes:

Choose the appropriate mode of interpretation for the specific medical event. First or third person, consecutive versus simultaneous.

Accuracy:

Accurately transmits information between the patient and provider.

No omissions, additions:

The interpreter will not omit, delete or add information to the interpretation session.

Transparency:

Employ transparency as to ensure that communication can be reestablished.

Clarification:

Asks for repetition, explanation or verification of concepts when appropriate.

Confidentiality:

Ensure that confidentiality and the interpreter's Code of Ethics are maintained.

All verbalization will be transmitted:

Informs all parties in the appointment that everything will be transmitted with no exception.

Limited advocacy:

Advocacy is only done upon systemic barriers and is done within a team operation.

Cultural Brokerage:

Cultural brokerage is only done when communication breaks down and is requested by the provider to assist in understanding a cultural nuance. Although the interpreter may be a cultural expert it cannot be assumed that an individual will be knowledgeable to all the diversity given within an ethnic group.

The voice of the patient and providers:

The interpreter does not advise, counsel or interject personal opinions.

The interpreter is not the educator or the provider but rather the voice and ears for the parties involved.

Diplomacy:

Diplomatically negotiates difficult situations with patients, providers and staff.

Conference calls:

Encourages conference calls to facilitate communications between the providers and patient.

Transmission of information:

Interpreters shall render the message faithfully, always conveying the content and spirit of the speaker, using language most readily understood by the person whom they service.

Testing and Assessment in Translation and Interpreting Studies Claudia V. Angelelli, Holly E. Jacobson, 2009-10-22 Testing and Assessment in Translation and Interpreting Studies examines issues of measurement that are essential to translation and interpreting Conceptualizing testing both as a process and a product the collection of papers explores these issues across languages and settings including university classrooms research projects the private sector and professional associations The authors have approached their chapters from different perspectives using a variety of methods some focusing on very specific variables and others providing a much broader overview of the issues at hand Chapters range from a discussion of the measurement of text cohesion in translation the measurement of interactional competence in interpreting the use of a particular scale to measure interpreters renditions to the application of a specific approach to

grading or general program assessment such as interpreter or translator certification at the national level or program admissions processes These studies point to the need for greater integration of research and practice in the specific area of testing and assessment and are a welcome addition to the field

The Oxford Handbook of Translation and Social Practices Sara Laviosa, Meng Ji, 2020-12-01 The discipline of translation studies has gained increasing importance at the beginning of the 21st century as a result of rapid globalization and the development of computer based translation methods Today changing political economic health and environmental realities across the world are generating previously unknown inter language communication challenges that can only be understood through a socially oriented and data driven approach The Oxford Handbook of Translation and Social Practices draws on a wide array of case studies from all over the world to demonstrate the value of different forms of translation written oral audiovisual as social practices that are essential to achieve sustainability accessibility inclusion multiculturalism and multilingualism Edited by Meng Ji and Sara Laviosa this timely collection illustrates the manifold interactions between translation studies and the social and natural sciences enabling for the first time the exchange of research resources and methods between translation and other domains experts Twenty nine chapters by international scholars and professional translators apply translation studies methods to a wide range of fields including healthcare environmental policy geological and cultural heritage conservation education tourism comparative politics conflict mediation international law commercial law immigration and indigenous rights The articles engage with numerous languages from European and Latin American contexts to Asian and Australian languages giving unprecedented weight to the translation of indigenous languages The Handbook highlights how translation studies generate innovative solutions to long standing and emerging social issues thus reformulating the scope of this discipline as a socially oriented empirical and ethical research field in the 21st century

The Weight of the White Coat Glenda M. Flores, 2025-04-29 Little has been written about Latina o physicians as students people or workers in a high skill occupation in the United States The Weight of the White Coat traces the life stages that Latina o physicians follow and the social mechanisms that shape their careers from the role of the family to different educational trajectories and even the practice of medicine Glenda M Flores turns a careful eye to this diverse pan ethnic group in an elite profession observing how demographic characteristics such as gender and ethnicity act like cumulative weights in their coat pockets producing hindrances for some and elevating others as they provide care in poor and wealthy communities Here the high occupational status of Latina o doctors offers a unique lens for examining the varied experiences of physicianhood and the still unsettled contours of Latinidad

Fox, 2022-03-21 *Assessing legal interpreter quality through testing and certification: The Qualitas Project* Cynthia Giambruno, 2014 Respect for the procedural rights of any individual involved in police or judicial matters is a basic tenet of a modern and sound system of justice Providing legal interpreting services to suspects defendants victims and witnesses who are not proficient in the language in which legal matters are being conducted is a broadly accepted practice throughout the EU However it is only recently that emphasis has been placed on the quality of the services provided EU Directive 2010 64 EU through its mandate for quality in legal interpreter and translating services has provided the impetus needed to reexamine current practices and work towards common standards and practices across the EU that would enhance mutual trust and allow for reciprocity and the sharing of expertise This volume reflects the deliberations of a panel of experts from the fields of legal interpreting testing theory and public policy who agree that the most effective means of ensuring quality is through testing and certification It addresses issues related to the assessment of the skill sets and knowledge required to ensure high quality legal interpreting and offers practical guidance and advice on the design and administration of a valid and reliable certification process **Washington Administrative Code**, 2009 *Working with Interpreters and Translators* Henriette W. Langdon, Terry Irvine Saenz, 2015-10-15 *Working with Interpreters and Translators A Guide for Speech Language Pathologists and Audiologists* offers state of the art procedures to conduct interviews assessments and conferences with students with limited English language proficiency and their families As no research base is available in the field of communicative disorders on this specific topic the information presented in this guide is supported by a critical review of the literature on best practices in interpreting for international conferences and legal and medical fields Furthermore the authors experience working with language interpreters and training professionals as well as graduate students in communicative disorders makes this a very valuable resource for professionals interpreters translators as well as undergraduate and graduate students Federal and state laws specify that if necessary English language learners ELL need to be assessed in their native language when referred for possible special education The number of ELL students attending public schools across the nation has increased in the past few decades There are not enough speech language pathologists SLPs or audiologists who are proficient in the various languages spoken by ELL students even in Spanish the most common language spoken by ELL students in the United States The next best solution is to conduct assessments in collaboration with a trained interpreter translator Key features include Information and references for the most common languages spoken by

ELL students Discussion of culturally based variables that need to be considered in the process of interviewing and working with linguistically and culturally diverse populations Description of the roles and responsibilities for individuals who will be collaborating as interpreters and translators with SLPs and audiologists in various contexts such as interviews assessments and various meetings such as IEPs and IFSPs as well as suggestions on training individuals in this collaborative process Review of best practices in speech language and audiological assessments both with and without materials in the given language Disclaimer Please note that ancillary content such documents audio and video may not be included as published in the original print version of this book Working with Interpreters and Translators A Guide for Speech Language Pathologists and Audiologists is a must have reference for anyone working with ELL students Although the process was developed with the pediatric population in mind much of this information can be applied to older culturally and linguistically diverse populations in need of speech language and or hearing services It will also be useful to professionals working with language interpreters in allied health professions in other countries
