Flavin, Caitlyn

Harris, 2024-12-15 Folkloric Horror in Medieval Literature New Discussions and Approaches focuses on the medieval and early modern precursors of what is now frequently described as Folk Horror Part of the argument staged in this book stems from an observation that much of what is currently excluded from the conversation about folk horror if not all horror generally could be considered folkloric or folkloresque in many cases and would be worthy of inclusion in the discussion The argument here is that the recurrent use of medieval literature and tropes as elements of the modern Folk Horror revival in the late twentieth and twenty first centuries stems in part from a modern repulsion and fascination with the premodern It is also an outgrowth of traditional narrative fascinations with the abject and the rejected sense of past and place which is present in recognizable forms in premodern literatures globally **The Frankenstein Archive** Donald F.
