Monsters, Mushroom Clouds, and the Cold War M. Keith Booker, 2001-05-30 The 1950s are widely regarded as the golden age of American science fiction This book surveys a wide range of major science fiction novels and films from the long 1950s the period from 1946 to 1964 when the tensions of the Cold War were at their peak The American science fiction novels and films of this period clearly reflect Cold War anxieties and tensions through their focus on such

themes as alien invasion and nuclear holocaust In this sense they resemble the observations of social and cultural critics during the same period Meanwhile American science fiction of the long 1950s also engages its historical and political contexts through an interrogation of phenomena such as alienation and routinization that can be seen as consequences of the development of American capitalism during this period This economic trend is part of the rise of the global phenomenon that Marxist theorists have called late capitalism Thus American science fiction during this period reflects the rise of late capitalism and participates in the beginnings of postmodernism described by Frederic Jameson as the cultural logic of late capitalism

Donoghue, 2010-05-25 From a writer of astonishing versatility and erudition the much admired literary critic novelist short story writer and scholar Dazzling The Washington Post One of those rare writers who seems to be able to work on any register any time any atmosphere and make it her own The Observer a book that explores the little known literary tradition of love between women in Western literature from Chaucer and Shakespeare to Charlotte Bront Dickens Agatha Christie and many more Emma Donoghue brings to bear all her knowledge and grasp to examine how desire between women in English literature has been portrayed from schoolgirls and vampires to runaway wives from cross dressing knights to contemporary murder stories Donoghue looks at the work of those writers who have addressed the unspeakable subject examining whether such desire between women is freakish or omnipresent holy or evil heartwarming or ridiculous as she excavates a long obscured tradition of inseparable friendship between women one that is surprisingly central to our cultural history Donoghue writes about the half dozen contrasting girl girl plots that have been told and retold over the centuries metamorphosing from generation to generation What interests the author are the twists and turns of the plots themselves and how these stories have changed or haven't over the centuries rather than how they reflect their time and society Donoghue explores the writing of Sade Diderot Balzac Thomas Hardy H Rider Haggard Elizabeth Bowen and others and the ways in which the woman who desires women has been cast as not quite human as ghost or vampire She writes about the ever present triangle found in novels and plays from the last three centuries in which a woman and man compete for the heroine's love about how and why same sex attraction is surprisingly ubiquitous in crime fiction from the work of Wilkie Collins and Dorothy L Sayers to P D James Finally Donoghue looks at the plotline that has dominated writings about desire between women since the late nineteenth century how a woman's life is turned upside down by the realization that she desires another woman whether she comes to terms with this discovery privately comes out of the closet or is publicly outed She shows how this narrative pattern has remained popular and how it has taken many forms in the works of George Moore Radclyffe Hall Patricia Highsmith and Rita Mae Brown from case history style stories and dramas in and out of the courtroom to schoolgirl love stories and rebellious picaresques A revelation of a centuries old literary tradition brilliant amusing and until now deliberately overlooked
