Rhodes, 2017-06-01 This study examines how the multiple social cultural and political changes between John Kennedy's inauguration in 1961 and the end of American involvement in Vietnam in 1973 manifested themselves in the lives of preadolescent American children Because the preadolescent years are according to the child development researchers the most formative Joel P Rhodes focuses on the cohort born between 1956 and 1970 who have never been quantitatively defined as a generation but whose preadolescent world was nonetheless quite distinct from that of the baby boomers Rhodes examines how this group understood the historical forces of the 1960s as children and how they made meaning of these forces based on their developmental age He is concerned not only with the immediate imprint of the 1960s on their young lives but with how their perspective on the era influenced them as adults **Rocket Dreams** Christian Davenport, 2025-09-16 Musk versus Bezos China versus the United States The government versus the private sector Welcome to the rivalries and alliances defining the

New Space Age At stake Billions of dollars national prestige and a place in the history books Moon landings and space walks once captivated the public's attention But in recent decades the U S space enterprise has felt moribund Now that's finally about to change A fleet of powerful new rockets is poised to take humans into the cosmos more than ever before A lunar land rush has sparked a geopolitical competition among nations And the world's two richest men have engaged in escalating brinkmanship as NASA and the U S government embraces Silicon Valley innovation to jump start the nation's ambitions Space has entered a golden age and this is just the beginning In this gripping work award winning Washington Post writer Christian Davenport chronicles the mad scramble to shape humanity's off planet future He takes readers behind the scenes at NASA and the Pentagon as China's aggressive moon mining plans raise alarms onto the sprawling Cape Canaveral factory where Blue Origin is working toward Amazon style lunar deliveries and onto SpaceX launch pads as Musk's engineers log 100 hour weeks leaving veteran astronauts marveling that they're now operating flying iPhones What will happen as human ambition outpaces governmental regulation Which country will win the race back to the moon Was Donald Trump's much derided creation of the Space Force a surprising act of foresight and will the U S finally make a real push to the moon and eventually toward Mars Masterfully paced rigorously reported and vividly told Rocket Dreams offers a riveting fly on the wall account of the grit fueled global battle to push humankind further into the cosmos revealing that the science fiction dreams of the last century may soon become our reality Defining NASA's Mission and America's Vision for the Future of Space Exploration United States. Chladek,2017-08 The International Space Station ISS is the largest man made structure to orbit Earth and has been conducting research for close to a decade and a half Yet it is only the latest in a long line of space stations and laboratories that have flown in orbit since the early 1970s The histories of these earlier programs have been all but forgotten as the public focused on other higher profile adventures such as the Apollo moon landings A vast trove of stories filled with excitement danger humor sadness failure and success Outposts on the Frontier reveals how the Soviets and the Americans combined strengths to build space stations over the past fifty years At the heart of these scientific advances are people of both greatness and modesty Jay Chladek documents the historical tapestry of the people the early attempts at space station programs and how astronauts and engineers have contributed to and shaped the ISS in surprising ways Outposts on the Frontier delves into the intriguing stories behind the USAF Manned Orbiting Laboratory the Almaz and Salyut programs Skylab the Apollo Soyuz Test Project Spacelab Mir station Spacehab and the ISS and gives past due attention to Vladimir Chelomei the Russian designer whose influence in space station development is as significant as Sergei Korolev s in rocketry Outposts on the Frontier is an informative and dynamic history of humankind s first outposts on the frontier of space Ring Around the Maple Cynthia R. Comacchio,Neil Sutherland,2024-10-29 Ring Around the Maple is about the condition of children in Canada from roughly 1850 to 2000 a time during which the modern increasingly disrupted traditional ways Authors Cynthia R Comacchio and Neil Sutherland trace the lives of children over this long century with a view to synthesizing the rich interdisciplinary often multi disciplinary literature that has emerged since the 1970s Integrated into this synthesis is the authors new research into many often seemingly disparate archival and published primary sources Emphasizing how the child and childhood are sociohistoric constructs and employing age analytically and relationally they discuss the constants and the variants in their historic dimensions While childhood tangibly modernized during these years it remained a far from universal experience due to identifiers of race gender culture region and intergenerational adaptations that characterize the process of growing up This work highlights children s perspectives through close critical against the grain readings of diaries correspondence memoirs interviews oral histories and autobiographies many buried in obscure archives It is the only extant historical discussion of Canadian children that interweaves the experiences of First Nations M tis and Inuit children with those of children from a number of settler groups Ring Around the Maple makes use of photographs catalogues advertisements government publications musical recordings radio shows television shows material goods documentary and feature films and other such visual and aural testimony Much of this evidence has not to date been used as historical testimony to uncover the lives of ordinary children This book is generously illustrated with photographs and ephemera carefully selected to reflect children s lives conditions interests and obligations It will be of special interest to historians and social scientists interested in children and the culture of childhood but will also appeal to readers who enjoy the little stories that together make up our collective history especially when those are told by the children who lived them

*Recruiter Journal* ,2009      Women Spacefarers Umberto Cavallaro,2017-03-02 This book tells the fascinating stories of the valiant women who broke down barriers to join the space program Beginning with the orbital flight of USSR cosmonaut Valentina Tereshkova in 1963 they became players in the greatest adventure of our time The author contextualizes their accomplishments in light of the political and cultural climate from the Cold War in the background to the changing status of women in society at large during the Seventies The book includes the biographies of and in some cases interviews with the sixty women who flew in space in the first half century of space history It reports their achievements and some little known details The result is a gallery of pioneering women who reached for the stars women who with exceptional skill hard work and dedication reached impressive careers as accomplished pilots researchers and engineers many are now in high level managerial positions both at NASA or in public and private organizations and all left a legacy of strength      *Societal Impact of Spaceflight* Steven J. Dick,Roger D. Launius,2007 Since the dawn of spaceflight advocates of a robust space effort have argued that human activity beyond Earth makes a significant difference in everyday life Assertions about the impact of spaceflight on society and its relationship to the larger contours of human existence Fifty years after the Space Age began it is time to examine the effects of spaceflight on society in a historically rigorous way Has the Space Age indeed had a significant effect on society If so what are those influences What do we mean by an impact on society And what parts of society Conversely has society had any effect on spaceflight What would be different had there been no Space Age The purpose of this volume is to examine these and related questions through scholarly research making use especially of the tools of the historian and the broader social sciences and humanities Herein a stellar array of scholars does just that and arrives at sometimes surprising conclusions      **US Black Engineer & IT** ,2008      **Black Women and Resilience** Kisha Braithwaite Holden,Camara Phyllis Jones,2024-04-01 Black Women and Resilience Power Perseverance and Public Health brings together a wealth of qualitative and quantitative research to help foster broad understanding and advancement of Black women s collective health and wellbeing Throughout Kisha B Holden and Camara Phyllis Jones and their contributors use a health equity lens maintaining that achieving health equity requires valuing all individuals and populations equally recognizing and rectifying historical injustices and providing resources according to need Across four sections scholars practitioners and community leaders address cultural narratives of Black womanhood significant health issues affecting Black women trauma stressors and strategies for healing and advocacy for social justice and collective action Multivocal and multidisciplinary Black Women and Resilience models and invites exchange across sectors and specializations while consistently centering the experiences and contributions of Black women as catalysts for transformation      *Wheels Stop* Rick Houston,2013-12-01 Humanity s first reusable spacecraft and the most complex machine ever built NASA s Space Shuttle debuted with great promise and as a dependable source of wonder and national pride But with the Challenger catastrophe in 1986 the whole Space Shuttle program came into question as did NASA itself so long an institution that was

seemingly above reproach *Wheels Stop* tells the stirring story of how after the Challenger disaster the Space Shuttle not only recovered but went on to perform its greatest missions From the Return to Flight mission of STS 26 in 1988 to the last shuttle mission ever on STS 135 in 2011 *Wheels Stop* takes readers behind the scenes as the shuttle's crews begin to mend Cold War tensions with the former Soviet Union conduct vital research deploy satellites repair the Hubble Space Telescope and assist in constructing the International Space Station It also tells the heart wrenching story of the Columbia tragedy and the loss of the magnificent STS 107 crew As complex as the shuttle was the people it carried into orbit were often more so and this is their story too Close encounters with astronauts flight controllers and shuttle workers capture the human side of the Space Shuttle's amazing journey and invite readers along for the ride Browse more spaceflight books at [upinspace.org](http://upinspace.org) Purchase the audio edition
