## **Morale Universelle La:**

**The Autocritique of Enlightenment** Mark Hulliung, 2017-09-29 Of all the critiques of the Enlightenment the most telling may be found in the life and writings of Jean Jacques Rousseau This searching long overlooked auto critique receives its first full treatment by Mark Hulliung Here he restores Rousseau to his historical context the world of the philosophes and shows how he employed the arsenal of Voltaire Diderot and others to launch a powerful attack on their version of the Enlightenment With great intellectual skill and rhetorical force Rousseau exposed the inconsistencies and shortcomings of the Enlightenment the psychology of Locke the genre of philosophical and conjectural history the latest applications of science to the study of society and politics and the growing interest in materialist modes of thought As the century moved on Hulliung shows the most advanced philosophes found themselves drawn to conclusions that paralleled Rousseau's an agreement that went unacknowledged at the time The Enlightenment that emerges here is richer more nuanced and more self critical than the one reflected in many interpretations By extracting Rousseau from personal entanglements that stymied debate in his time and that mislead critics to this day Hulliung reveals the remarkable and remarkably unacknowledged force of Rousseau's accomplishment This edition includes a brilliant new introduction by the author *The World of the Salons*

Antoine Lilti, 2014-12-01 The world of the eighteenth century salon has long been lauded as a meritocratic setting where writers philosophers and women created the Enlightenment In *The World of the Salons* historian Antoine Lilti proposes a fresh interpretation of salons in eighteenth century Paris Drawing on cultural history social history and the history of literature he challenges the commonly accepted vision of salons as literary circles that were part of the Republic of Letters Lilti argues instead that salons were institutions of worldly sociability that helped shape the world *le monde* and high society They were essential places where the aristocratic elites of the capital met and interacted with literary figures Attending them required a mastery of the codes of polite conversation There news circulated and personal reputations were made and lost As opposed to the salon being a realm separate from the court at Versailles it was a site where elites gained enough influence to forge marital alliances secure government appointments or pensions and win over royal censors These discussion circles were part of refined society not public opinion and those writers who gained mass appeal were shunned by salon goers For those who think they know what the salon meant in early modern European culture politics and intellectual circles Antoine Lilti's *The World of the Salons* offers an important corrective of what went on behind the closed doors of the French salons

**Catalogue of Printed Books in the Library of the British Museum** British Museum. Department of Printed Books, 1889      *More Equal Than Others* Raffael N Fasel, 2024-02-21 Unprecedented demands have recently arrived at the doorstep of courts and parliaments the world over nonhuman animals should receive some of the rights that have so far been reserved to human beings This development has raised fundamental questions about the nature of legal rights and who should have them *More Equal Than Others* Humans and the Rights of Other Animals provides a sustained analysis of the fundamental rights of human and nonhuman animals to explore the issue of whether conferring fundamental legal rights to animals would undermine the equal status and rights of humans Raffael N Fasel proposes an unorthodox but practical solution to this issue the Species Membership Approach SMA According to the SMA legal rights and similar entitlements should be granted to animals based on the species to which they belong not their individual capacities By pioneering an approach that focuses on species membership rather than individual capacities the author demonstrates how fundamental legal rights can be extended to nonhuman animals without threatening the status and equal rights of humans This book examines the antithetical nature of the human rights and animal rights conceptions that have so far dominated the debate and demonstrates how a middle ground can be reached between these opposing conceptions Informed by the forgotten history of animal and human rights in the French Enlightenment *More Equal Than Others* radically reimagines the spectrum of fundamental rights conceptions      **The Economy of Glory** Robert Morrissey, 2013-12-16 From the outset of Napoleon s career the charismatic Corsican was compared to mythic heroes of antiquity like Achilles and even today he remains the apotheosis of French glory a value deeply embedded in the country s history From this angle the Napoleonic era can be viewed as the final chapter in the battle of the Ancients and Moderns In this book Robert Morrissey presents a literary and

cultural history of glory and its development in France and explores the economy of glory Napoleon sought to implement in an attempt to heal the divide between the Old Regime and the Revolution Examining how Napoleon saw glory as a means of escaping the impasse of Revolutionary ideas of radical egalitarianism Morrissey illustrates the challenge the leader faced in reconciling the antagonistic values of virtue and self interest heroism and equality He reveals that the economy of glory was both egalitarian creating the possibility of an aristocracy based on merit rather than wealth and traditional being deeply embedded in the history of aristocratic chivalry and the monarchy making it the heart of Napoleon s politics of fusion Going beyond Napoleon Morrissey considers how figures of French romanticism such as Chateaubriand Balzac and Hugo constantly reevaluated this legacy of glory and its consequences for modernity Available for the first time in English The Economy of Glory is a sophisticated and beautifully written addition to French history Cultural Heritage and International Law Evelyn Lagrange, Stefan Oeter, Robert Uerpman-Wittzack, 2018-07-04 This book explores the objects means and ends of international cultural heritage protection It starts from a broad conception of cultural heritage that encompasses both tangible property such as museum objects or buildings and intangible heritage such as languages and traditions Cultural heritage thus defined is protected by various legal regimes including the law of armed conflicts UNESCO Conventions and international criminal law With a view to strengthening international protection the authors analyze existing regimes and elaborate innovative concepts such as blue helmets of culture and safe havens for endangered cultural heritage Finally the ends of international protection come to the fore and the authors address possible conflicts between protecting cultural diversity and wishes to strengthen cultural identity **The Enlightenment that Failed** Jonathan I. Israel, 2019-11-28 The Enlightenment that Failed explores the growing rift between those Enlightenment trends and initiatives that appealed exclusively to elites and those aspiring to enlighten all of society by raising mankind s awareness freedoms and educational level generally Jonathan I Israel explains why the democratic and radical secularizing tendency of the Western Enlightenment after gaining some notable successes during the revolutionary era 1775 1820 in numerous countries especially in Europe North America and Spanish America ultimately failed He argues that a populist Robespierrieste tendency sharply at odds with democratic values and freedom of expression gained an ideological advantage in France and that the negative reaction this generally provoked caused a more general anti Enlightenment reaction a surging anti intellectualism combined with forms of religious revival that largely undermined the longings of the deprived underprivileged and disadvantaged and ended by helping albeit often unwittingly conservative anti Enlightenment ideologies to dominate the scene The Enlightenment that Failed relates both the American and the French revolutions to the Enlightenment in a markedly different fashion from how this is usually done showing how both great revolutions were fundamentally split between bitterly opposed and utterly incompatible ideological tendencies Radical Enlightenment which had been an effective ideological challenge to the prevailing monarchical aristocratic status quo was weakened then almost entirely derailed and

displaced from the Western consciousness in the 1830s and 1840s by the rise of Marxism and other forms of socialism

*Mesmerism and the End of the Enlightenment in France* Robert DARNTON, 2009-06-30 An excellent and exemplary study in the history of ideas Provides a commendable model for those interested in the way true and false ideas interact and broadly influence behavior Science Early in 1788 Franz Anton Mesmer a Viennese physician arrived in Paris and began to promulgate a somewhat exotic theory of healing that almost immediately seized the imagination of the general populace Robert Darnton in his lively study of mesmerism and its relation to eighteenth century radical political thought and popular scientific notions provides a useful contribution to the study of popular culture and the manner in which ideas are diffused down through various social levels **The Ridpath Library of Universal Literature ...** John Clark Ridpath, 1899
