Accessible Filmmaking Pablo Romero-Fresco, 2019-05-01 Translation accessibility and the viewing experience of foreign deaf and blind audiences has long been a neglected area of research within film studies The same applies to the film industry where current distribution strategies and exhibition platforms severely underestimate the audience that exists for foreign and accessible cinema Translated and accessible versions are usually produced with limited time for little remuneration and traditionally involving zero contact with the creative team Against this background this book presents accessible filmmaking as an alternative approach integrating translation and accessibility into the filmmaking process through collaboration between translators and filmmakers The book introduces a wide notion of media accessibility and the concepts of the global version the dubbing effect and subtitling blindness It presents scientific evidence showing how translation and accessibility can impact the nature and reception of a film by foreign and sensory impaired audiences often changing the film in a way that filmmakers are not always aware of The book includes clips from the award winning film Notes on Blindness on the Routledge Translation Studies Portal testimonies from filmmakers who have adopted this approach and a presentation of the accessible filmmaking workflow and a new professional figure the director of accessibility and translation This is an essential resource for advanced students and scholars working in film audiovisual translation and media accessibility as well as for those accessible filmmakers who are not only concerned about their original viewers but also about those of the foreign and accessible versions of their films who are often left behind **Reading Programs for Young Adults** Martha Seif

Simpson, 2015-11-16 School and public libraries often provide programs and activities for children in preschool through the sixth grade but there is little available to young adults For them libraries become a place for work the place to research an assignment or find a book for a report but the thought of the library as a place for enjoyment is lost So how do librarians recapture the interest of teenagers This just might be the answer Here you will find theme based units such as Cartoon Cavalcade Log On at the Library Go in Style Cruising the Mall Space Shots Teens on TV and 44 others that are designed for young adults Each includes a display idea suggestions for local sponsorship of prizes a program game to encourage

participation 10 theme related activities curriculum tie in activities sample questions for use in trivia games or scavenger hunts ideas for activity sheets a bibliography of related works and a list of theme related films The units are highly flexible allowing any public or school library to adapt them to their particular needs Understanding Animation Paul Wells, 2013-11-15 First Published in 1998 Understanding Animation is a comprehensive introduction to animated film from cartoons to computer animation Paul Wells insightful account of a critically neglected but increasingly popular medium explains the defining characteristics of animation as a cinematic form outlines different models and methods which can be used to interpret and evaluate animated films traces the development of animated film around the world from Betty Boop to Wallace and Gromit Part history part theory and part celebration Understanding Animation includes notes towards a theory of animation an explanation of animation s narrative strategies an analysis of how comic events are constructed a discussion of representation focusing on gender and race primary research on animation and audiences Paul Wells argument is illustrated with case studies including Daffy Duck in Chuck Jones Duck Amuck Jan Svankmajer s Jabberwocky Tex Avery s Little Rural Riding Hood and King Size Canary and Nick Park s Creature Comforts Understanding Animation demonstrates that the animated film has much to tell us about ourselves the cultures we live in and our view of art and society
