Country Reports On Economic Policy And Trade Practices, February 2002, *, 2002

The Report: Algeria 2015 Oxford Business Group, 2015-12-12 Algeria is a country rich in history and situated in a strategically important region While its past has at times been turbulent the last decade has been one of relative peace Economic growth and development has followed driven primarily by advances in the hydrocarbons sector The fall in the international price of oil since mid 2014 however is having a substantial economic impact in particular on the country s trade balance and government finances On the positive side though the drop in prices is accelerating efforts to further diversify the economy pushing the government to open up the country to greater private and foreign investment in order to provide alternatives to state spending in part through measures to render the rigid investment environment more attractive **Report** ,1972 *Art in the Service of Colonialism* Hamid Irbouh, 2013-03-25 In the Moroccan French Protectorate 1912 1956 the French established vocational and fine art schools imposed modern systems of industrial production and pedagogy and reinvented old traditions Hamid Irbouh argues that the French used this systematic modernisation of local arts and crafts regulation to impose their control He looks in particular at the role and place of women in the structures of art production and education created by the French that transformed and dominated Moroccan society during the colonial period French women infiltrated the Moroccan milieu to buttress colonial ideology yet at critical moments Moroccan women rejected traditional roles and sabotaged colonial plans Meanwhile the contradictions between reformist goals and the old order added to social dislocations and led to rebellion against French hegemony Irbouh examines and analyses these processes and demonstrates how Moroccan artists have struggled to exorcise French influences and rediscover an authentic visual culture since decolonisation This book reveals that the weight of colonial history continues to weigh heavily on artistic practice and production
