Morphopsychologie Le Visage Miroir De La Personnalité:

Morphopsychologie Patrice Ras,2008 Cet ouvrage est un guide pratique et concret qui met la morphopsychologie à portée de tous. Abondamment illustré avec 44 dessins et 196 photos, il présente la morphopsychologie d'une manière simple et progressive. S'appuyant sur les recherches de Louis Corman, le fondateur dont l'auteur n'a limité que les aspects contestables, son originalité réside dans la façon de présenter cette discipline au moyen de la pyramide. La partie centrale est divisée en deux pour une meilleure assimilation et met en parallèle quatre photos ou dessins pour une page de texte. Il comprend en outre trois portraits simples qui permettent de comprendre comment appliquer les concepts vus précédemment. De plus, une partie importante est consacrée aux questions les plus fréquentes recueillies au cours de ses conférences et autres formations, traitées sous la forme d'un dialogue plus interactif. Enfin, un dernier chapitre est consacré au monde de la morphopsychologie.

Morphopsychologie : le visage, miroir de la personnalité Patrice Ras, 2017-04-14 Cet ouvrage est un guide pratique et concret qui met la morphopsychologie à portée de tous. Abondamment illustré avec 52 dessins et 200 photos, il présente la morphopsychologie d'une manière simple et progressive. S'appuyant sur les recherches de Louis Corman, le fondateur, son originalité réside dans la façon de présenter cette discipline au moyen de la pyramide. Chaque planche de quatre photographies essentielles offre une compréhension totale du principe de la morphologie, accompagné d'un descriptif complet et des points clés de la personnalité affranchie. Les lois morphopsychologiques sont universelles : les visages sont les plus variés possibles. Des exemples démontrés viennent corroborer chacune des notions pour une meilleure clarté dans l'esprit du lecteur. Une partie est consacrée aux questions les plus fréquentes recueillies par l'auteur au cours de ses conférences et autres formations. Enfin, un dernier chapitre présente le monde de la morphopsychologie.
