

## Dollar Up Strategy:

The dollar up strategy is a way to pay for your items without having to calculate change. For example, if an item costs \$1.50, you round up to the nearest whole dollar, or \$2. If an item costs \$3.75, the nearest whole dollar is \$4.

Look at the cost of each item. Using the Dollar Up Strategy, write how much you will give to the cashier.

**Government reform of higher education** Great Britain: Parliament: House of Commons: Business, Innovation and Skills Committee,Adrian Bailey,2011-11-10 This report concludes that the Government s communications strategy on tuition fees could have been more effectively realised It urges the government to reconsider funding widening participation in higher education through a programme similar to the pupil premium The committee also concluded that focusing financial support on providing money for living costs to students while they are studying would be a more effective means of support than fee waivers and would be more consistent with the message that students should not be dissuaded from applying to university because of the cost and recommends that the National Scholarship Programme be refocused accordingly Furthermore reforms are not yet complete with a number of consultation exercises currently out for responses including early repayment penalties for loans the future of student number controls loans for students studying at alternative providers off quota students and a new regulatory framework for new and alternative providers The detail to be required in the Key Information Sets has yet to be finalised There will also need to be changes to both OFFA and HEFCE to reflect their changing responsibilities in higher education The committee highlights the fact that the new fee regime is to start at the beginning of the next academic year and there is concern that the necessary coherent package of reforms be delivered to that timetable The report also stresses that the reforms should be implemented as a package and not in a piecemeal way
