

120V AC
Ionization
Smoke Alarm
with 9V Battery
Back-up

FIREX

Smoke Alarm

110-10828

MODEL FADC

**PLEASE READ AND
SAVE THIS MANUAL**

Installer: Please leave this
manual with the product.

This ionization type alarm is generally more effective at detecting fast, flaming fires which consume combustible materials rapidly and spread quickly. Sources of these fires may include flammable liquids or paper burning in a waste container. This photoelectric type alarm is generally more effective at detecting slow, smoldering fires which smolder for hours before bursting into flame. Sources of these fires may include cigarettes burning in couches or bedding. However, both types of alarms are designed to provide adequate detection of both types of fires. If you desire the benefits of both systems, you should install smoke alarms that combine in one alarm both photoelectric and ionization sensing technologies.

SMOKE ALARM FEATURES

- This smoke alarm is powered by 120V AC and a 9-volt battery back-up source. AC/DC smoke alarms offer added protection in the event of a power failure or a drained battery.
- Unique power connector prevents interconnection with incompatible smoke alarms or security systems.
- This smoke alarm may be interconnected with as many as 11 other Firex model FADC, AD, ADC, RAD or FX1218 smoke alarms, and as many as 6 Firex model ADH heat alarms for a total of not more than 18 interconnected devices.
- Optional tamper-resist feature can serve as a safeguard against tampering.
- The smoke alarm will sound a short beep about once a minute if the battery is weak or improperly connected. Item 4718 also blinks the red LED 4 times each minute to help identify the alarm.
- Green and red LED indicator(s) show when the smoke alarm is receiving AC power, working under normal operation, in alarm, or under false alarm control.
- Loud alarm horn—85 decibels at 10 feet—sounds to alert you to an emergency.
- This alarm incorporates the internationally recognized horn signal for misdisturbance. During alarm mode, the horn produces three short beeps followed by a 2 second pause and then repeats. This pattern is somewhat different than the previous alarm sound, which continuously beeped.
- Test button checks smoke alarm operation and activates False Alarm Control feature which quiets unwanted alarms for up to 15 minutes.
- Item 4718 features a latching LED which blinks the initiating alarm's red LED 3 times each minute until manually reset.
- Item 4718 has a ramp-up test horn feature which emits 2 reduced-volume beeps before reaching the full 85db level during testing.
