throughout to prepare students for the rigors of conceptual thinking in an abstract setting The early treatment of conceptual
topics in the context of Euclidean space gives students more time and a familiar setting in which to absorb them This
organization also makes it possible to treat eigenvalues and eigenvectors earlier than in most texts Abstract vector spaces
are introduced later once students have developed a solid conceptual foundation Concepts and topics are frequently
accompanied by applications to provide context and motivation Because many students learn by example Linear Algebra with
Applications provides a large number of representative examples over and above those used to introduce topics The text also
