

FIRST TERM SS1 TD NOTES

Week One Topic: Drawing Materials and Equipment

Definition:

Technical Drawing is the use of drawing instruments, lines, letters, signs, and symbols to present ideas on a paper in the form of pictures or drawings, which only technicians can interpret and use to achieve their technical goals. The instruments used in Technical drawing work come in two forms namely drawing materials and drawing equipments.

1. **Drawing materials:** These are the instruments that the technician can carry along him wherever he wishes. They are easy to carry, because they are not usually heavy. Examples of drawing instruments are: pencil, eraser, stencil, Tee square, masking tape/pin, erasing shield, handkerchief/tissue paper, template, ruler, French curves, flexible curves, drawing sheet, compasses, divider, and glass paper/sharpener.
2. **Drawing equipment:** This has to do with most of the heavy instruments that the technician may not always carry about wherever he goes. Examples include drawing software, computer, camera, and drawing board.

Identification and uses of drawing instruments and materials

The uses of the materials and instrument mentioned above are briefly stated below:

1. **Pencils (H, HB, and B types):** are used to draw lines. H pencils are very hard and are use for drawing thin lines, while B pencils are very soft, used to draw thick or wide lines. HB pencil can be used to draw both thin and thick lines, depending on the pressure that is applied to the pencil while drawing the line. Both H and B pencils vary in grades, marked from H to 7H, and from B to 7B pencils. 7H is the hardest than H; and 7B is the softest than B.
2. **Eraser:** for removing mistakes made with pencils while drawing.
3. **Stencils:** used to write number, mathematical signs and alphabets.
4. **Tee Square:** for drawing horizontal and vertical parallel lines.
5. **Masking tape/Pin:** for holding drawing paper on the drawing board.
6. **Erasing shield:** for aiding during the process of erasing selected areas on a drawing.
7. **Handkerchief/tissue papers:** for removing or dusting away particles left by the eraser.
8. **Template:** for drawing special figures on a paper.
9. **Ruler:** for drawing straight lines and taking measurements.
10. **French curves:** for joining points to produce curved lines.
11. **Flexible curves:** For drawing curved lines without joining points.
12. **Drawing sheet:** the paper on which the drawing is done.
13. **Compasses:** is used to draw circles and arcs.
14. **Divider:** used to transfer measurement from the ruler to the paper.
15. **Glass paper/sharpener:** used to sharpen pencils.
16. **Drawing board:** used to hold the paper while the drawing lasts.
17. **Drawing software:** used to draw in a computer; e.g. AutoCAD, CorelDraw, Harvard graphics, etc.
18. **Computer:** is equipment which makes drawing easier, faster, more accurate and attractive.
