Mscce Teaching Syllabus:

Secondary School Curriculum Review Symposium, 1995 *The Malawian Geographer*, 1989 Trends in Malawian Literature Francis P. B. Moto, 2001 Trends in Malawian Literature's departure point is a brief examination of how Malawi's post independence politics affected Malawi literary landscape and an assessment of the early missionaries contribution to early Malawian literature in the local languages That done it discusses messages in the early literature The conclusion drawn is that the early literature in Malawi like most African countries was a potent mouth piece for Christian doctrine and western values Against this background Trends in Malawian Literature assesses the concerns of later writers who although begin to move from the good versus evil dichotomy still emphasize that socially and culturally one is either an sic initially and turns to be good later or vice versa Back cover *Developing Effective Policies for HIV/AIDS Education practice in Sub Saharan Africa: The Case of Urban Schools of Malawi: A synergy of pupils needs, policies and practice* Paul Makochi, 2014-11-01 HIV AIDS has been named the Sub Saharan disease In countries that have achieved significant declines in HIV prevalence young people have registered the biggest behavioural changes It means they hold the keys not only to our understanding of the epidemic but more importantly to the efforts required to stem the tide of infections However the majority of young people are ignorant of how to prevent transmission have low compliance to condom use which is in some cases accentuated by misconceptions about HIV AIDS transmission and have insufficient knowledge regarding transmission and avoidance behaviours As such consensus on feasible preventive interventions target young people particularly those in schools It is on this premise that the book unlocks the key pillars in effective HIV AIDS education policies and practices The study has drawn upon the experiences of selected Urban Schools in Malawi to explore the needs of young people in classroom the extent to which the classroom practices respond to the needs and the factors influencing these using questionnaires interviews lesson observations and document analysis Malawi typically represents most Sub Saharan African countries in terms of challenges faced by education systems Given the similar cultural settings of the people of Sub Saharan Africa the findings and recommendations of the study generalises to the education systems of Sub Saharan Africa to a greater extent The book shows the need for open discussion climates on HIV AIDS issues despite a conservative cultural and religious adult world that is not open It has also identified a need for explicit and accurate knowledge on HIV AIDS issues opportunities to acquire behavioural skills for HIV prevention and involvement of external speakers in classroom HIV AIDS education Current classroom practice does not address the pupils needs adequately Factors influencing this can be linked to lack of policies responsive to culture and religion ineffective and inadequate teaching policy guidelines and lack of a policy prioritising HIV AIDS education The findings suggest that in future effective HIV AIDS Education needs to be informed by the pupils needs To address these needs support from the wider society and related policies coupled with appropriate management and classroom practice will be required The book is therefore an indispensable tool for education systems in Sub Saharan Africa
