

## Foundations of Reading MTEL

### Phonological Awareness

- **The ability for the reader to recognize the phonemes of a spoken language; broad term**
- Auditory; does NOT involve print
- Begins before children learn letter-sound relationships
- Basis for spelling and phonics
- Begins before alphabetic principle/graphophonics
- ELL students may confuse phonemes with their language; they should learn to speak before reading
- ESE students may need to see a speech therapist if pronunciation is an issue
  - **Phonemic Awareness: a specific skill under the umbrella of phonological awareness** "Crucial for emergent readers K-2 before phonics"
    - Rhyming/clustering: identifying in rhymes shared the onset and rimes
    - Oddly tasks: recognize the part that sticks out in a set
    - Blending and splitting syllables rather than just identifying the number of syllables
    - Orally segment parts of the word
    - Manipulation like replacing rap to top; most effective by focusing on one or two at a time (segment, delete, add, substitute)
    - Small group instruction most effective
    - ELL modifications: word walls, poems, increased read-alouds, singing
    - Ongoing tips and advice for assessing phonemic awareness
      - Helps students learn to spell by segmenting the sounds
      - Helps students learn to spell by blending sounds

### Phonics: the understanding that there is a relationship between sounds and letters K-2

- Need the background in phonemic awareness before starting phonics
- Grapheme: smallest part of written language (letter or two letters)
- Letter-sound relationships
- Sound-symbol
- Sound-spelling
- Helps to learn alphabetic principle
- Systematic and explicit instruction of phonics is the most effective due to a predetermined sequence for learning letter-sound relationships - e.g. Beverly Tyler
- Phonics helps with decoding and word recognition, therefore improves comprehension

### Fluency: ability to read a text accurately and

#### APPROACHES TO PHONICS INSTRUCTION

Phonics instruction can be provided with various approaches to deliver instruction, including whole-classroom, self-instruction, computer-assisted, and one-on-one, including computer-assisted individual approaches.

**Systemic phonics** (Phonics) refers to a comprehensive & explicit instruction in the sounds and their way to read the words together & their separate parts.

**Whole-classroom phonics** refers to explicit letter-sound relationships instruction delivered to all students in the classroom setting.

**Reading level phonics** (Phonics) refers to a sequence of word families that leads to reading level words that are then read aloud.

**Phonics through spelling** (Phonics) refers to explicit word instruction with a focus on the writing process for phonics.

**Individual phonics** (Phonics) refers to explicit word instruction during the reading of individual text. It often involves individualized instruction and assessment as they read the program & are assessed on progress.

**Multi-sensory phonics** (Phonics) refers to explicit instruction for students with learning disabilities. This approach is a multi-sensory approach to reading.
