d Shifts in Person and Number

Person is the form a pronoun or verb takes to indicate who is speaking (first person—*I am, we are*), who is spoken to (second person—you are), and who is spoken about (third person—he, it is; and they are). Number indicates one (singular—*novel*) or many (plural—*novels, they, them*).

Faulty shifts between the second- and the third-person nouns cause most errors.

INCONSISTENT: When one looks for a loan, you compare the interest rates from several banks. (shift from third to second person)

REVISED: When one looks for a loan, one compares the interest rates from several banks.

REVISED: When you look for a loan, you compare the interest rates from several banks.

REVISED: When a person looks for a loan, he or she compares the interest rates from several banks.

Unwarranted shifts in number also create confusion with sentences. Make sure that singular pronouns refer to singular antecedents and plural pronouns to plural antecedents (see 241–2).

INCONSISTENT: If a person does not study regularly, they will have a difficult time passing organic chemistry. (shift from singular to plural)

REVISED: If a person does not study regularly, he or she will have a difficult time passing organic chemistry.

REVISED: If students do not study regularly, they will have a difficult time passing organic chemistry.

NOTE: Although college writing follows standard conventions of pronoun-antecedent agreement, use of a plural pronoun referring to a singular antecedent is increasingly common when such use enables the writer to avoid sexist language (see 17g.3).

Buddy Holly and Janis Joplin each made a significant contribution with their music.

EXERCISE 4

Read the following sentences, and eliminate any shifts in tense, voice, mood, person, or number. Some sentences are correct, and some will have more than one possible answer.

16e Shifts from Direct to Indirect Discourse

Direct discourse reports the exact words of a speaker or writer. It is always enclosed in quotation marks and is usually accompanied by an identifying tag (*he says, she said*).

Commenting on his play, Eugene O'Neill said, "The script is written in blood and tears."

When a question is reported directly, the identifying tag indicates asking, and the sentence ends with a question mark.
