Climate Change and Cities Cynthia Rosenzweig, William D. Solecki, Patricia Romero-Lankao, Shagun Mehrotra, Shobhakar Dhakal, Somayya Ali Ibrahim, 2018-03-29 Climate Change and

Cities bridges science to action for climate change adaptation and mitigation efforts in cities around the world **Towards more effective collaboration by higher education institutions for greater regional development in the Gauteng City-Region** Robert Bergman, 2014-11-19 Higher education institutions HEIs in the Gauteng City Region GCR and elsewhere are increasingly being called upon to do more than their traditional roles of teaching and research They are now expected to collaborate and engage with other stakeholders with a view to contributing directly and indirectly to social and economic development in their localities Such an orientation includes having HEIs actively fostering public private partnerships and other initiatives that enhance equitable regional development The adoption of such a focus has implications for all aspects of these institutions activities as well as for the policy and regulatory framework in which they operate This Occasional Paper reflects critically on the role of HEIs in regional development It surveys current debates on the matter and draws out some of the implications on how we ought to think further about the current state of government industryacademia interaction and collaboration for development in the GCR It is motivated by an awareness of the increasing importance of higher education in the regional development discourse alongside a body of international theory and practice on the contribution of HEIs to regional development A cornerstone of this body of literature is the so called triple helix framework within which government industry and academia work intimately intensely and collaboratively towards a common vision of regional development Within this framework HEIs are considered to be a public good that must play a large meaningful and relevant role in the development and improvement of the cities and regions where they are located 1 2 They do not and cannot stand completely outside the realities of their geographic social cultural and political environment The intended audience for this report extends beyond academics and HEI administrators to include government officials business and labour leaders civil society and citizens because a discussion on stimulating and improving the GCR must be much more than an academic exercise The collaboration that is essential to regional development requires stakeholders to be familiar with a wide spectrum of issues of importance to individual constituencies Each constituency must add value and insight to the discussion by drawing on their specific knowledge experience and self interests Establishing this common ground is fundamental to initiating meaningful debate about what the GCR can and should be and how regional HEIs can work more collaboratively creatively and effectively to improve and advance the region **Journal of education Culture and Society** Aleksander

medizinisch fundiert zeigt die Wissenschaftsjournalistin Miryam Muhm wie die falsche Festlegung vieler Referenzbereiche für Blutwerte zu Fehldiagnosen und Behandlungsfehlern führt. So kann sich beispielsweise hinter Abgeschlagenheit, Depression und Burnout oft ein simpler Eisenmangel verstecken und die Ursache für Gedächtnisstörungen, Konzentrationsschwäche und Demenz liegt mitunter in einem Vitamin B12 Defizit. Miryam Muhm liefert Patienten die sich vom modernen Medizinbetrieb im Stich gelassen fühlen konstruktive Informationen die wieder Mut machen. Sie wendet sich zudem an jeden der einen Blick hinter die Kulissen der Medizin werfen will um seine eigene Gesundheit mit fundiertem Wissen besser schützen zu können.

A Surgeon and a Maverick Simon Pearson, Fiona Gorman, 2023-10-03 A remarkable journey. The Telegraph. The incredible life story of legendary cardiac surgeon and scientist Magdi Yacoub, an outsider who succeeded against the odds. Veteran journalists Simon Pearson and Fiona Gorman follow the remarkable life of heart surgeon Magdi Yacoub from his formative years in Egypt through spectacular success at Cairo University to his long and distinguished career in Britain. Although at times he clashed with the medical establishment in London, Yacoub pioneered great advances in heart surgery. He was knighted in 1992 and in 2014 he was awarded the highest honor in the gift of the Queen, the Order of Merit. Written with unprecedented access and drawing on extensive interviews and research, the biography recounts how Yacoub transformed the treatment of children with congenital heart disease. He performed some of the first heart transplants in Britain and the first heart-lung transplants in Europe. At London's Harefield Hospital, he created the greatest heart transplant center in the world. Among his patients are men and women who are still thriving more than thirty-five years after he gave them new hope. This story is also about science, the development of new medical techniques and a deeper understanding of how the human body works. Today, at an age when most people have long since retired, Yacoub is still pushing the boundaries of scientific understanding and surgical know-how. He is also taking heart surgery to places that until now have had little access to cardiac treatment, developing centers of excellence across Africa, including in Egypt where his hospital in Aswan has an international reputation and a new center is rising in Cairo. Yacoub's life is one of triumph and

tragedy success and failure fierce criticism and high praise it is also an enthralling journey through the worlds of scientific research and medical politics and ethics at the highest levels *The Infrastructures of Security* Martin Murray,2022-08-15

Abortion Services and Reproductive Justice in Rural South Africa Ulandi du Plessis,Catriona Ida Macleod,2024-03 Despite progressive legislation abortion service implementation and access in South Africa s rural areas is challenging and directly affects low income communities This book urges an intervention for safe and accessible abortion services that does not compromise costs or confidentiality within a reparative reproductive justice framework Understanding Peace and Conflict Through Social Identity Theory Shelley McKeown,Reeshma Haji,Neil Ferguson,2016-06-17 This volume brings together perspectives on social identity and peace psychology to explore the role that categorization plays in both conflict

and peace building To do so it draws leading scholars from across the world in a comprehensive exploration of social identity theory and its application to some of the world's most pressing problems such as intrastate conflict uprising in the middle east the refugee crisis global warming racism and peace building A crucial theme of the volume is that social identity theory affects all of us no matter whether we are currently in a state of conflict or one further along in the peace process The volume is organized into two sections Section 1 focuses on the development of social identity theory Grounded in the pioneering work of Dr Henri Tajfel section 1 provides the reader with a historical background of the theory as well as its current developments Then section 2 brings together a series of country case studies focusing on issues of identity across five continents This section enables cross cultural comparisons in terms of methodology and findings and encourages the reader to identify general applications of identity to the understanding of peace as well as applications that may be more relevant in specific contexts Taken together these two sections provide a contemporary and diverse account of the state of social identity research in conflict situations and peace psychology today It is evident that any account of peace requires an intricate understanding of identity both as a cause and consequence of conflict as well as a potential resource to be harnessed in the promotion and maintenance of peace

Understanding Peace and Conflict Through Social Identity Theory
Contemporary Global Perspectives aims to help achieve such an understanding and as such is a valuable resource to those studying peace and conflict psychologists sociologists anthropologists public policy makers and all those interested in the ways in which social identity impacts our world
