Lost Property Jennifer Summit, 2000-07 The English literary canon is haunted by the figure of the lost woman writer In our own age she has been a powerful stimulus for the rediscovery of works written by women But as Jennifer Summit argues the lost woman writer also served as an evocative symbol during the very formation of an English literary tradition from the fourteenth through the sixteenth centuries Lost Property traces the representation of women writers from Margery Kempe and Christine de Pizan to Elizabeth I and Mary Queen of Scots exploring how the woman writer became a focal point for emerging theories of literature and authorship in English precisely because of her perceived alienation from tradition Through original archival research and readings of key literary texts Summit writes a new history of the woman writer that reflects the impact of such developments as the introduction of printing the Reformation and the rise of the English court as a literary center A major rethinking of the place of women writers in the histories of books authorship and canon formation Lost Property demonstrates that rather than being an unimaginable anomaly the idea of the woman writer played a key role in the invention of English literature The Wilsonian Moment Erez Manela, 2007-07-23 During the Paris Peace Conference of 1919 while key decisions were debated by the victorious Allied powers a multitude of smaller nations and colonies held

their breath waiting to see how their fates would be decided President Woodrow Wilson in his Fourteen Points had called for a free open minded and absolutely impartial adjustment of all colonial claims giving equal weight would be given to the opinions of the colonized peoples and the colonial powers Among those nations now paying close attention to Wilson s words and actions were the budding nationalist leaders of four disparate non Western societies Egypt India China and Korea That spring Wilson s words would help ignite political upheavals in all four of these countries This book is the first to place the 1919 Revolution in Egypt the Rowlatt Satyagraha in India the May Fourth movement in China and the March First uprising in Korea in the context of a broader Wilsonian moment that challenged the existing international order Using primary source material from America Europe and Asia historian Erez Manela tells the story of how emerging nationalist movements appropriated Wilsonian language and adapted it to their own local culture and politics as they launched into action on the international stage The rapid disintegration of the Wilsonian promise left a legacy of disillusionment and facilitated the spread of revisionist ideologies and movements in these societies future leaders of Third World liberation movements Mao Zedong Ho Chi Minh and Jawaharlal Nehru among others were profoundly shaped by their experiences at the time The importance of the Paris Peace Conference and Wilson s influence on international affairs far from the battlefields of Europe cannot be underestimated Now for the first time we can clearly see just how the events played out at Versailles sparked a wave of nationalism that is still resonating globally today [Mutatio 1933 \(English version\)](#) Giulio Fulchignoni,2024-05-17
