Frederick Starr, 2019-11-21 In the years since the first edition of the Guide was published the research institutions of the academies of sciences of the USSR and the republics have undergone several sometimes radical reorganizations and reaffiliations This guide to academy institutions supplies names addresses and historical research and organizational profiles for each institution with summary information on staffing current projects special facilities and libraries The end of the Cold War has brought with it many changes of attitude and policy in the political arena however nowhere has change been so emotionally charged as in the area of politically based emigration Refugee policy is the driving force behind many of today's headlines influencing both foreign and domestic policy In *Desperate Crossings* authors Norman L and Naomi Flink Zucker chronicle and analyze the phenomenon of mass escape that began with the Haitians but exploded into the American consciousness in the spring of 1980 with the Mariel boatlift and the subsequent mass exodus from Central America and was most recently manifested in the Haitian and Cuban exoduses of 1994 In a compelling and carefully documented narrative they identify the troika of interests foreign policy domestic pressures and costs that have controlled and determined the American response to refugees since before the Second World War continuing until today *Desperate Crossings* concludes by proposing a comprehensive and politically palatable approach to future refugee flows both in our hemisphere and for the world community at large including Europe and Asia The authors suggest how by changing the course of its refugee policies and programs the United States can better respond to both the needs of refugees and the demands of its citizens Georgia Education Journal , 1927 **GACE History Study Guide** J. artists while making a national effort to document the country's shared history and culture. The American Guide series consists of individual guides to each of the states. Little known authors, many of whom would later become celebrated literary figures, were commissioned to write these important books. John Steinbeck, Saul Bellow, Zora Neale Hurston, and Ralph Ellison are among the more than 6,000 writers, editors, historians, and researchers who documented this celebration of local histories. Photographs, drawings, driving tours, detailed descriptions of towns, and rich cultural details exhibit each state's unique flavor. The WPA Guide to Georgia describes the rich historical and cultural background of America's Peach State. With varied and interesting photos, the guide gives readers a real taste as to what sweet southern living was like in the 1940s all the way from the top of the Blue Ridge Mountains down to the roaring Mississippi River valley.

*Bibliography of Georgia Authors, 1949-1965* John W. Bonner, Jr., 2010-03-01 Starting in 1949 John W. Bonner Jr. compiled an annual annotated bibliography of books by Georgia writers for the Georgia Review. Published in 1966, this volume contains sixteen years of publications by native-born Georgian authors and authors who had lived in the state for at least five years. Books are listed by author, title, publisher, date, and price of the work. The annotations are descriptive rather than critical, intended to outline what type of material is contained in the books. A complete index by author is included.
