The supply community is also increasingly playing a more significant role in helping the original equipment manufacturers research, develop and introduce the latest engineering innovations that help bring competitive advantage for their automaker partners. Each year the editors of SAE's Automotive Engineering magazine publish many articles focused on the technology and engineering innovations of new passenger and concept vehicles and these articles have been collected into this volume. This 2015 Passenger Car and 2014 Concept Car Yearbook is the fourth in an ongoing series of books that provide yearly snapshots of the latest and greatest technologies introduced by the automotive industry.
