✓ Exclusively available on IvyPanda

Problem statement

The quality of the work environment matters a lot to employees and contributes to improved worker productivity and motivation. The concept of fun while working is exciting and research shows that it improves employee productivity (Catherine, Lottie & Jeremy, 2014). Although the idea of fun at work may be problematic because employees may tend to trivialize everything, emerging evidence, shows that employees can still have fun while taking their core work seriously. Employees clearly want to take things more lightly than currently allowed in most companies. However, what is missing from the current literature is what fun really does to employees making them work harder and focus more on their work. Work stress and frustration are commonly cited as the most common killer of motivation (Hazelton, 2014). If that was the case, how does fun eliminate work stress? Researchers have largely ignored this important question. Fun in the work environment appears to improve communication and reduce frustration (Lamm & Meeks, 2012).

The source of frustration could be due to poor communication. For example, if a low-level employee is required to complete certain work and yet cannot more direction as he/she feel needed, it can be a source of frustration (Bennett, Owers, Pitt, & Tucker, 2010). An organization that promotes a culture of fun and informality breaks down inhibitions that hinder communication (Baptiste, 2012). The mechanism through which fun improves the general work environment fosters communication and reduces stress is poorly understood. It is not enough to know that fun is good for improving employee motivation and productivity. Employers need to understand what fun actually does to change people from being frustrated with happy and hardworking people. This information can be captured by interviewing employees and as well as collecting data on things such as absenteeism and sick leave. There is a genuine fear that embracing fun in the workplace would erode professionalism. Knowing what exactly makes employees happy in an environment of fun is important in removing the fears human resource managers and employers may be having.

Handbook for Teaching and Learning in Higher Education Heather Fry, Steve Ketteridge, Stephanie Marshall, 2003. While white racism has global dimensions, it has an unshakeable lease on life in South African political organizations and its educational system. Donnarae MacCann and Yulisa Maddy here provide a thorough and provocative analysis of South African children's literature during the key decade around Nelson Mandela's release from prison. Their research demonstrates that the literature of this period was derived from the same milieu: intellectual, educational, religious, political and economic, that brought white supremacy to South Africa during colonial times. This volume is a signal contribution to the study of children's literature and its relation to racism and social conditions. *Philosophical Essays East and West* Michael Slote, 2023-09-27

The book is a much expanded version of the Kuang Yi Liu Lectures in Chinese Philosophy the author delivered in Taiwan in December 2022. The book brings together essays on Chinese philosophy, Western philosophy and the proposed interaction between them. The purpose is not mainly exegetical or descriptive; the book seeks to expand our philosophical understanding in various directions. *Philosophical Essays East and West* shows how Chinese thought can help Western analytic philosophy develop further and can even serve as a corrective to certain central aspects of traditional and contemporary Western philosophical thinking. We Western analytic philosophers don't think we have much, if anything, to learn from Chinese philosophical ideas. But we do, we do, and much of the present book seeks to show how. Studying topics in ethics, philosophy of mind, epistemology and aesthetics, this book puts Chinese philosophy in conversation with traditional problems in Western analytic philosophy. It also proposes aphorism as an important method in both traditions. **The Essay At the Limits** Mario

Aquilina, 2021-04-08. In the hands of such writers as Rebecca Solnit, Claudia Rankine, David Shields, Zadie Smith and many others, the essay has re-emerged as a powerful literary form for tackling a fractious 21st century culture. *The Essay at the Limits* brings together leading scholars to explore the theory, the poetics and the future of the form. The book links the formal innovations and new voices that have emerged in the 21st century essay to the history and theory of the essay. In so doing, it surveys the essay from its origins to its relation to contemporary cultural forms: from the novel to poetry, film to music and from political articles to intimate lyrical expressions. The book examines work by writers such as Theodor W. Adorno, Kwame Anthony Appiah, Francis Bacon, James Baldwin, Roland Barthes, Maurice Blanchot, Ta-Nehisi Coates, Annie Dillard, Brian Dillon, Jean Genet, William Hazlitt, Samuel Johnson, Karl Ove Knausgaard, Ben Lerner, Audre Lorde, Oscar Wilde, Michel de Montaigne, Zadie Smith, Rebecca Solnit, Wallace Stevens, Eliot Weinberger and Virginia Woolf. *Revision: Cognitive and Instructional*

Processes Linda Allal, L. Chanquoy, Pierre Largy, 2012-12-06 Revision Revisited LINDA ALLAL LUCILE CHANQUOY University of Geneva Switzerland University of Nantes France Revision is a fundamental component of the writing process So fundamental that for some specialists writing is largely a matter of revising or as Murray 1978 stated Writing is rewriting p 85 Experience with writing does not however automatically translate into increased skill in revision Learning to revise is a lengthy complex endeavor Beginning writers do little revision spontaneously and even experienced writers encounter difficulties in attempting to improve the quality of their texts Fitzgerald 1987 Although revision has been extensively dealt with in the writing and learning to write literature this book proposes to revisit theory and research in this area through a series of new contributions The introduction begins with an overview of what revision encompasses It then examines two parallel interrogations that underlie the chapters assembled here namely 1 What are the implications of research on cognitive processes for instruction in revision 2 What are the questions raised by instructional research for the investigation of cognitive processes of revision A final section presents the chapters of this book *Simplify Your Study* Peter Lia, 2020-02-12 This innovative book provides clear and straight forward strategies which help students to understand the conventions of academic assignments and what lecturers expect from their work Simplify Your Study is organised around nine core units which focus on the sticking points of university study including organisation and planning reading and note making strategies producing essays critical thinking delivering presentations and preparing for exams Packed with tried and tested strategies for success this essential resource will help students of all disciplines and levels to achieve their academic potential *Historical Development of English Learning Motivation Research* Tae-Young Kim, 2021-09-07 This book clarifies the fundamental difference between North America based instrumental motivation and Korea and East Asia specific competitive motivation by which the EFL learners excessive competition to be admitted to famous universities and to be hired at a large scale conglomerate is the main source of L2 motivation It enables readers to understand that EFL learning motivation reflects unique sociohistorical contexts grounded in a specific region or country This book in turn necessitates the need to develop EFL motivation theory and research tradition which are firmly based on East Asian values and culture
