

Business Concept Paper for New Dimension Entertainment LLC DBA Rave-Nation.com

Team Leader: Shawheen Amirkhizi

Problem

Ravers are people that actively attend Electronic Dance Music (EDM) Concerts AKA "techno concerts" or "raves". Ravers enjoy the electronic music played at these concerts and are influenced by the culture of electronic music genres. Ravers want unique and customized products that will make them stand out from others. They also want them for specific dates, usually the date of the next concert they are attending. These products are often rare so there are only a few suppliers. Many companies that do offer them do not offer a variety of different products, have poor customer service and a lack of customization. Also many of these companies are located outside the US, and they can take quite some time to ship out orders. Ravers often require their products by the date of their next concert. This is a big shortfall to ordering from overseas and from multiple companies.

Products

Rave-Nation.com offers rare and customizable products in one place. Ravers can find nearly everything they need for their next event at one website instead of multiple websites. Our customization allows customers to purchase just part of an outfit instead of the whole thing, make requests for specialized clothing, and provide custom options and additions to many products, such as adding spikes, extra lenses, and extra decals to goggles. Rave-Nation has two product types:
Apparel – Clubwear and items not generally seen in everyday society such as Cyber falls, and Fluffy boot covers.
Accessories – Products used at a rave, such as Glowsticks, LED Glowsticks, and LED Hula Hoops.

Customer

Ravers can be defined as anyone that enjoys Electronic Dance Music (EDM) and frequently goes to EDM Concerts. These individuals want to be seen as unique and they express this uniqueness at raves through clothing and accessories. The majority of ravers are between the ages of 18 and 25, many of which are college students. Three main types of ravers:
Kandi Ravers- Dress in lots of colors and wear a lot of fur. They also wear beaded jewelry, and enjoy fast paced music.
Gogo Girls- Typically paid dancers that work in groups with similar outfits of fluffies, clubwear, and hosiery.
Cyber Ravers – Wear black clothes with bright colors. Interested in LED gas masks, LED goggles, and UFO pants.

Market

Market Size: Actual market size is hard to determine. The largest EDM Concerts and festivals have attendances between 100k and 200k people. Below are estimates on the size of the largest Dance Parties in the US. Some of the below events happen multiple times in one year. The CEO of Insomniac Events, the promotion company in charge of the Electric Daisy Carnival stated: "We're doing 16 festivals in 2012," (Amter, 2011). Again it is hard to find list style statistics, but there are tens of DJs that have the ability to attract tens of thousands ravers with their name alone. These events are occurring every weekend and many weekdays of the year, across the entire US. The bigger events with attendances in the 100 thousands, happen frequently as well. Six of these largest events are listed below but this is not a complete list of 100 thousand + person events.

Electric Daisy Carnival – 140,000 (Wake, 2012)

Ultra Music Festival – 150,000 (Wake, 2012)

Example Of Concept Paper For Business

**Management Association, Information
Resources**

Example Of Concept Paper For Business:

Sustainable Business: Concepts, Methodologies, Tools, and Applications Management Association, Information Resources, 2019-08-02 In the increasingly competitive corporate sector businesses must examine their current practices to ensure business success By examining their social financial and environmental risks obligations and opportunities businesses can re design their operations more effectively to ensure prosperity Sustainable Business Concepts Methodologies Tools and Applications is a vital reference source that explores the best practices that promote business sustainability including examining how economic social and environmental aspects are related to each other in the company s management and performance Highlighting a range of topics such as lean manufacturing sustainable business model innovation and ethical consumerism this multi volume book is ideally designed for entrepreneurs business executives business professionals managers and academics seeking current research on sustainable business practices

Co-operative and Mutual Enterprises Research Tim Mazzarol, 2023-10-25 Co operative and mutual enterprise is one of the oldest and most enduring forms of business encompassing co operatives mutual firms friendly societies and credit unions This book provides an expert overview of contemporary research in this important field Governments around the world have encouraged the development of co operative and mutual enterprises CMEs yet relatively little attention has been given to them within the mainstream business and economics research literature In this book the author summarises the origins impacts and structure of the research field The book does so by focusing on the CME business model and is structured around a conceptual framework for research into CMEs It also explores the historical evolution of the CME research field and presents a systematic review of the literature Foundation theories relevant to CMEs are discussed before detailed discussions of the research from a systems enterprise and member level perspective This book critically analyses the state of knowledge in the field of CMEs which delivers a concise and valuable book for scholars and students in the fields of business and management around the world

Commerce Business Daily, 2000 International Cooperation, Convergence and Harmonization of Pharmaceutical Regulations Pierre-Louis Lezot, 2013-12-05 International Cooperation Convergence and Harmonization of Pharmaceutical Regulations A Global Perspective provides the current status of the complex and broad phenomenon of cooperation convergence and harmonization in the pharmaceutical sector Part I thoroughly evaluates its added value and its critical parameters and influencing factors Part II in order to recommend actions and measures to support the next steps for cooperation convergence and harmonization Part III All of these recommendations in the book support the establishment of a better coordinated global pharmaceutical system which represents the best realistic alternative to fulfill the objective to establish a global coalition of regulators and to respond to an increased demand to further cooperation in the pharmaceutical sector This proposed framework which leverages all of the ongoing positive cooperation initiatives and uses as foundations all of the numerous harmonization projects developed over the years presents advantages for all stakeholders and would

definitively have significant added value to the promotion and protection of global public health The status of all major worldwide harmonization and cooperation initiatives at bilateral regional and global levels The value of cooperation in the pharmaceutical sector and the driving factors behind harmonization The proposition of a structure for the global pharmaceutical system and timely recommendations for enhancing international cooperation as well as further discussion and policy changes in this area *To Examine Small Business Trade Opportunities with the Soviet Union and Eastern Europe* United States. Abstracts ,1987 *Integrated Sales Process Management* Michael W. Lodato Ph. D.,Michael W. Lodato,2006 Selling is getting more and more complex yet few companies are implementing formal sales processes that would bring the degree of management control that is needed Too many managers have no reliable way to measure the performance of sales people other than by orders produced and bulging 30 60 90 day forecasts with little or no backup There is pressure to adopt sales automation but there isn t much evidence of its improving sales effectiveness The decision is not a simple one successful implementation is even harder If you want to improve your competitiveness you may need to change the behavior of your salespeople by focusing on the processes that run the business You can t change the behavior without changing the processes and inspecting that they are being followed The book guides the reader to building an integrated system of sales and marketing management processes But this itself will not bring the desired level of effectiveness You must also manage the interaction among the management processes and in so doing seamlessly integrate the product marketing strategy the sales and marketing tactics and the sales and marketing management processes This is neither a text book nor a book on sales management theory It is a step by step here s how to do it guide to achieving integrated sales process management It evolved to its current state not as an academic activity but from years of empirical evidence of what works and what doesn t In a global business environment where everyone is working hard to achieve a unique edge understanding and improving your management processes faster than your competitors may be the only sustainable competitive advantage This book introduces Integrated Sales Process Management to people who are or aspire to be marketing and sales executives and provides them with a direction to achieving the concepts in their own organizations The central theme in the book is that if you want to solve sales effectiveness problems permanently or prevent them from occurring you must become more management process driven **Challenges of Information Technology Management in the 21st Century** Information

Resources Management Association. International Conference,2000 As the 21st century begins we are faced with opportunities and challenges of available technology as well as pressured to create strategic and tactical plans for future technology Worldwide IT professionals are sharing and trading concepts and ideas for effective IT management and this co operation is what leads to solid IT management practices This volume is a collection of papers that present IT management perspectives from professionals around the world The papers seek to offer new ideas refine old ones and pose interesting

scenarios to help the reader develop company sensitive management strategies
