

# DIAGRAMMING SENTENCES

The **predicate** of a sentence includes the part of a sentence that **says something** about the subject. The **verb** is the **main part of the predicate**, but it may be followed by **modifiers**. **Modifiers can be words or clauses**.

**Students read books.**

In this first sentence, the predicate contains a **direct object**. The word "books" is the direct object of the verb read. The verb **read** is a **transitive verb**, or a verb that requires a receiver of the action. To diagram a direct object, draw a vertical line that stands on the base.

**Teachers are happy.**

The second sentence contains a predicate adjective (happy). A **predicate adjective** always follows a linking verb.

A **noun clause** can serve as a direct object. It is diagrammed like a word, with a vertical line preceding it, but it stands on a second, raised baseline. Treat the clause as a sentence by separating the noun from the verb.

Don't be thrown off by two or more direct objects. If a predicate contains a **compound object**, simply treat it the same as a sentence with a one-word direct object. Give each a separate base line.
