One Nation Under Goods James J. Farrell, 2014-07-15 Loved and hated visited and avoided seemingly everywhere yet endlessly the same malls occupy a special place in American life What then is this invention that evokes such strong and contradictory emotions in Americans In many ways malls represent the apotheosis of American consumerism and this synthetic and wide ranging investigation is an eye popping tour of American culture s values and beliefs Like your favorite mall *One Nation under Goods* is a browser s paradise and in order to understand America s culture of consumption you need to make a trip to the mall with Farrell This lively fast paced history of the hidden secrets of the shopping mall explains how retail designers make shopping and goods irresistible Architects chain stores and mall owners relax and beguile us into shopping through water fountains ficus trees mirrors and covert security cameras From food courts and fountains to Santa and security Farrell explains how malls control their patrons and convince us that shopping is always an enjoyable activity And most importantly *One Nation Under Goods* shows why the mall s ultimate promise of happiness through consumption is largely an illusion It s all here for one low price of course

Shopping Malls and Public Space in Modern China

Nicholas Jewell, 2016-03-03 China s rise as an economic superpower has been inescapable Statistical hyperbole has been accompanied by a plethora of highly publicized architectural forms that brand the regeneration of its increasingly globalized urban centres Despite the sizeable body of literature that has accompanied China s modernization the essence and trajectory of its contemporary cityscape remains difficult to grasp This volume addresses a less explored aspect of China s urban rejuvenation the prominence of the shopping mall as a keystone of its public spaces Here the presence of the built form most representative of Western capitalism s excess is one that makes explicit the tensions between China s Communist state and its ascent within the free market This book examines how these interrelationships are manifested in the culturally hybrid built form of the shopping mall and its role in contesting the public space of the modern Chinese city By viewing these interrelationships as collisions of global and local narratives a more nuanced understanding of the shopping mall typology is explored Much architectural criticism has failed to address the levels of meaning implicit within the shopping mall yet it is a building type whose public popularity has guaranteed its endurance Consequently if architecture is to remain a relevant social art a more holistic understanding of this phenomenon will be indispensable to the process of adapting to globalizing forces This examination of Chinese shopping malls offers a timely and relevant case study of what is happening in all our cities today

Harvard Design Magazine , 2002 *Consuming Scenography* Nebojša Tabacki, 2020-06-25 Longlisted for the PQ Best Publication Award in Performance Design Scenography 2023 *Consuming Scenography* offers an insight into contemporary scenographic practice beyond the theatre It explores the ways in which scenography is used to create a global cultural impact and accelerate profits in the site specific context of themed shopping malls It analyses the effect of the

architectural aesthetic spatial material and sensory aspects of design through their performative encounters with consumers in order to offer a better understanding of performance design In the first part the author explores the spatial seduction of an enclosed market space and traces the origins of scenographic temporality in permanent architectonic spaces for trade and commerce from ancient Greek and Roman roofed markets and Oriental bazaars to 19th century arcades and department stores to modern day shopping malls The second section addresses the site specific theatricality of the shopping mall considering the use of performative aspects of scenography in the creation of corporate identity It engages with production and consumption of experience in themed shopping malls using historical aesthetical social and political lenses In the final section the author intertwines fluidity of market changes with flexibility of scenographic matter drawing attention to both contradictions and prospects that merging of scenography and architecture can bring along Considering a variety of case studies of themed shopping malls including the Ibn Battuta Mall in Dubai Terminal 21 in Bangkok the Villaggio in Doha and Montecasino in Johannesburg as well as further examples from Europe USA and Asia this book provides a wide ranging critical examination of the ways in which scenographic thinking and practices are exploited in wider cultural contexts for impact branding and higher profits Without and Within Mark Pimlott,2007 **Dream Cities** Wade Graham,2016-05-15
