## **Home Survey Guidelines:**

**Food data collection in Household Consumption and Expenditure Surveys. Guidelines for low and middle income countries** Food and Agriculture Organization of the United Nations, The World Bank, 2018-10-30 The measurement of food consumption and expenditure is a fundamental component of any analysis of poverty and food security and hence the importance and timeliness of devoting attention to the topic cannot be overemphasized as the international development community confronts the challenges of monitoring progress in implementing the 2030 Agenda for Sustainable Development In 2014 the International Household Survey Network published a desk review of the reliability and relevance of survey questions as included in 100 household surveys from low and middle income countries The report was presented in March 2014 at the forty fifth session of the United Nations Statistical Commission UNSC in a seminar organized by the Inter Agency and Expert Group on Food Security Agricultural and Rural Statistics IAEG AG The assessment painted a bleak picture in terms of heterogeneity in survey design and overall relevance and reliability of the data being collected On the positive side it pointed to many areas in which even marginal changes to survey and questionnaire design could lead to a significant increase in reliability and consequently great improvements in measurement accuracy The report which sparked a lot of interest from development partners and UNSC member countries prompted IAEG AG to pursue this area of work with the ultimate objective of developing validating and promoting scalable standards for the measurement of food consumption in household surveys The work started with an expert workshop that took place in Rome in November 2014 Successive versions of the guidelines were drafted and discussed at various IAEG AG meetings and in another expert workshop organized in November 2016 in Rome The guidelines were put together by a joint FAO World Bank team with inputs and comments received from representatives of national statistical offices international organizations survey practitioners academics and experts in different disciplines statistics economics nutrition food security and analysis A list of the main contributors is included in the acknowledgment section In December 2017 a draft of the guidelines was circulated to 148 National Statistical Offices from low to high income countries for comments The document was revised following that consultation and submitted to UNSC which endorsed it at its forty ninth session in March 2018 under item 3 j of the agenda agricultural and rural statistics The version presented here reflects what was endorsed by the Commission edited for language The process received support from the Global Strategy for Agricultural and Rural Statistics The document is intended to be a reference document for National Statistical Offices survey practitioners and national and international agencies designing household surveys that involve the collection of food consumption and expenditure data
