The Shoulder César Fernández-de-las-Peñas, Jeremy Lewis, 2022-03-21. The *Shoulder Theory Practice* presents a comprehensive fusion of the current research knowledge and clinical expertise that will be essential for any clinician from any discipline who is involved with the assessment, management, and rehabilitation of musculoskeletal conditions of the shoulder. This book is a team project led by two internationally renowned researchers and clinicians, Jeremy Lewis and César Fernández-de-las-Peñas. Other members of the team include over 100 prominent clinical experts and researchers. All are at the forefront of contributing new knowledge to enable us to provide better care for those seeking support for their shoulder problem. The team also comprises the voices of patients with shoulder problems who recount their experiences and provide clinicians with important insight into how better to communicate and manage the needs of the people who seek advice and guidance. The contributing authors include physiotherapists, physical therapists, medical doctors, orthopedic surgeons, psychologists, epidemiologists, radiologists, midwives, historians, nutritionists, anatomists, researchers, rheumatologists, oncologists, elite athletes, athletic trainers, pain scientists, strength and conditioning experts, and practitioners of yoga and tai chi. The cumulative knowledge contained within the pages of *The Shoulder Theory Practice* would take decades to synthesise. The *Shoulder Theory Practice* is divided into 42 chapters over three parts that will holistically blend, as the title promises, all key aspects of the essential theory and practice to successfully support clinicians wanting to offer those seeking help the very best care possible. It will be an authoritative text and is supported by exceptional artwork, photographs, and links to relevant online information.

[Maitland's Vertebral Manipulation](#) Elly Hengeveld, Kevin Banks, 2013-08-22. The legacy of Geoff Maitland and his seminal work *Vertebral Manipulation* continues in this eighth edition with Elly Hengeveld and Kevin Banks leading an international team of experts who demonstrate how to manage vertebral neuromusculoskeletal disorders using the principles and practice of the Maitland Concept. Together they ensure the heart of the Concept beats on by promoting collaborative decision making with the patient at centre and emphasizing the art and science of observation, listening, palpation, and movement skills. A key feature of the new edition focuses on a more evidence-based and analytical view of the role of mobilization and manipulation in clinical practice. The authors have written in a way that reflects their application of the Maitland Concept and how they have integrated techniques in the light of advancement in professional knowledge. Each chapter stands alone as a master class. The text is systematically arranged, focusing on detailed assessment, clinical reasoning, and re-assessment to determine the physical dysfunction and efficacy of manipulative physiotherapy techniques while also advocating continuous communication.
