Marienthal The Sociography Of An Unemployed Community:

Marienthal Marie Jahoda, Paul F. Lazarsfeld, Hans Zeisel, 2017-07-12 One of the main theses of the Marienthal study was that prolonged unemployment leads to a state of apathy in which the victims do not utilize any longer even the few opportunities left to them The vicious cycle between reduced opportunities and reduced level of aspiration has remained the focus of all subsequent discussions So begin the opening remarks to the English language edition of what has become a major classic in the literature of social stratification **Czechs Won't Get Lost in the World, Let Alone in America**

Miloslav Rechcigl Jr., 2018-05-02 This book features a panorama of the lives of selected personalities whose roots had origin in the Czech lands and who in the US reached extraordinary success and who with their activities substantially influenced the growth and development of their new homeland It is a saga of plain as well as powerful people whose influence and importance often exceeded the borders of the US A great portion of included individuals may be unknown to readers since it concerns persons whose Czech origin was usually not known The book covers the total period from the times of the discovery of New World to the end of the twentieth century During the selection little concern was given to nationalistic or ethnographic criteria the only prerequisite was that the respected individuals were either born on the territory of the Czech lands or were descendants of emigrants from the Czech lands The image on the front cover is a portrait of Augustine Herman Lord of Bohemia Manor the first documented Czech immigrant in the United States The portrait comes from his famous Map of Maryland and Virginia dated 1670 The colorful story of his life would be unbelievable if made into a movie Pioneer merchant explorer surveyor map maker patriot rebel diplomat and finally Lord Read more about him in the book **Black Vienna**

Janek Wasserman, 2014-08-21 Interwar Vienna was considered a bastion of radical socialist thought and its reputation as Red Vienna has loomed large in both the popular imagination and the historiography of Central Europe However as Janek Wasserman shows in this book a Black Vienna existed as well its members voiced critiques of the postwar democratic order Jewish inclusion and Enlightenment values providing a theoretical foundation for Austrian and Central European fascist movements Looking at the complex interplay between intellectuals the public and the state he argues that seemingly apolitical Viennese intellectuals especially conservative ones dramatically affected the course of Austrian history While Red Viennese intellectuals mounted an impressive challenge in cultural and intellectual forums throughout the city radical conservatism carried the day Black Viennese intellectuals hastened the destruction of the First Republic facilitating the establishment of the Austrofascist state and paving the way for Anschluss with Nazi Germany Closely observing the works and actions of Viennese reformers journalists philosophers and scientists Wasserman traces intellectual social and political developments in the Austrian First Republic while highlighting intellectuals participation in the growing worldwide conflict between socialism conservatism and fascism Vienna was a microcosm of larger developments in Europe the rise of the radical right and the struggle between competing ideological visions By focusing on the evolution of Austrian

conservatism Wasserman complicates post World War II narratives about Austrian anti fascism and Austrian victimhood

Fox, 2017-07-05 In the Field by Renee C Fox is a narrative account of the author's life as a sociologist It is not a memoir in the conventional sense rather it is an ethnographic autobiography Drawing on a vast reservoir of notes and

documents that chronicle the span of her career this work also focuses on the places Fox's field research has carried her. Propelled by a conviction to move beyond the boundaries of herself and of her native land, Fox has done first-hand research in Europe, Central Africa, and China as well as in the United States. The majority of her research has centered on health, illness, and medicine. Other recurrent themes that pervade her work include training for uncertainty, the allocation of scarce resources, the relationship between self and others, detachment and concern, the particular and the universal, the harm that can result from intended good, and the questions posed by illness and accident, pain and suffering, and death. It is Fox's commitment as a teacher and mentor of generations of students that lies at the heart of this book. This volume will inspire new generations of social researchers.

The Ghost Reader Elena D. Hristova, Aimee-Marie Dorsten, Carol A. Stabile, 2024-03-19. The scholarship, research, and criticism of women who developed key theories of communication and methods for the study of media. *The Ghost Reader: Recovering Women's Contributions to Media Studies* offers a fresh perspective on the intellectual history of the field of media studies, a broad scholarly field that encompasses the interdisciplinary and overlapping fields of media studies, cultural studies, and communication studies. By recovering the work of the diverse group of women who labored at the margins of media studies as it took shape during the formative years of communication research between the 1930s and the 1950s and providing scholarly contexts for this work, *The Ghost Reader* shows that intersectional considerations were key modes of engagement for intellectuals, academics, and activists who happened to be women. They did so decades before feminist perspectives were reintegrated into histories of the field.

Cultures of Unemployment Godfried Engbersen, Kees Schuyt, Jaap Timmer, Frans van Waarden, 2006. An extraordinarily rich and detailed study of the social and economic life of unemployed and poor households. Michael Sherraden in *Social Work*

A Town Without Steel Judith Modell, 2014-11-30. Photographs by Charlee Brodsky. In 1986, with little warning, the USX Homestead Works closed. Thousands of workers who depended on steel to survive were left without work. *A Town Without Steel* looks at the people of Homestead as they reinvent their views of household and work and place in this world. The book details the modifications and revisions of domestic strategies in a public crisis. In some ways unique and in some ways typical of American industrial towns, the plight of Homestead sheds light on social, cultural, and political developments of the late twentieth century. In this anthropological and photographic account of a town facing the crisis of deindustrialization, *A Town Without Steel* focuses on families. Reminiscent of Margaret Byington and Lewis Hine's approach in *Homestead*, Charlee Brodsky's photographs document the visual dimension of change in Homestead. The mill that dominated the landscape transformed to a vast empty lot; a crowded commercial street turns into a ghost town; and an abundance of well-kept homes become an abandoned street of houses for sale. The individual narratives and family snapshots, Modell's interpretations, and Brodsky's photographs all evoke the tragedy and the resilience of a town whose primary source of self-identification no longer exists.

International Encyclopedia of Social Policy Tony Fitzpatrick, Huck-ju Kwon, Nick Manning, James

Midgley, Gillian Pascall, 2013-07-04 Available in paperback for the first time this milestone work offers an in depth treatment of all aspects of the discipline and practice of social policy globally Supported by a distinguished international advisory board the editors have compiled almost 900 000 words across 734 entries written by 284 leading specialists to provide authoritative coverage of concepts policy actors welfare institutions and services along a series of national regional and transnational dimensions Also included are biographical entries on major policy makers and shapers The editors have particularly striven to provide strong coverage of differing geographical and cultural traditions so that the variety of social policy as both an academic discipline and a domain of governance is reflected Contributors draw in and make the necessary connections with social policy s associated disciplines to provide a rich picture of this vast and highly diverse field Comprehensive and authoritative the Encyclopedia has sought to open up rather than to foreclose the numerous areas in which there is on going research debate and sometimes serious disagreement and divergence in theory and practice To this end entries attempt to introduce a core or common ground of understanding before moving on to a wider discussion of debates regarding different conceptual and geographical approaches The whole is integrated by cross referencing and each entry includes a bibliography for further reading There is a full index The International Encyclopedia of Social Policy provides the most substantial mapping of the international study and practice of social policy to date and will stand as a vital storehouse of knowledge for many years to come *Rescuing the Vulnerable* Beate Althammer, Lutz Raphael, Tamara Stazic-Wendt, 2016-05-01 In many ways the European welfare state constituted a response to the new forms of social fracture and economic turbulence that were born out of industrialization challenges that were particularly acute for groups whose integration into society seemed the most tenuous Covering a range of national cases this volume explores the relationship of weak social ties to poverty and how ideas about this relationship informed welfare policies in the nineteenth and twentieth centuries By focusing on three representative populations neglected children the homeless and the unemployed it provides a rich comparative consideration of the shifting perceptions representations and lived experiences of social vulnerability in modern Europe
