Epistolarity in a Post-Letter World Sindija Franzetti, 2024-11-18 The study intervenes in a field hitherto dominated by formal and historical analyses of the literary letter Across the five case studies the method of reading epistolarity as a motif is applied to a selection of American novels published after 1990 Nick Bantock's Griffin Lish and Dunn test the limitations of

**Translation and Repetition** Ma Carmen África Vidal Claramonte, 2023-07-13 Translation and Repetition Rewriting Un original Literature offers a new and original perspective in translation studies by considering creative repetition from the perspective of the translator This is done by analyzing so called unoriginal literature and thus expanding the definition of translation In Western thought repetition has long been regarded as something negative as a kind of cliché stereotype or automatism that is the opposite of creation On the other hand in the eyes of many contemporary philosophers from Wittgenstein and Derrida to Deleuze and Guattari repetition is more about difference It involves rewriting stories initially told in other contexts so that they acquire a different perspective In this sense repeating is often a political act Repetition is a creative impulse for the making of what is new Repetition as iteration is understood in this book as an action that recognizes the creative and critical potential of copying The author analyzes how our time understands originality and authorship differently from past eras and how the new philosophical ways of approaching repetition imply a new way of understanding the concept of originality and authorship Deconstruction of these notions also implies subverting the traditional ways of approaching translation This is vital reading for all courses on literary translation comparative literature and literature in translation within translation studies and literature
