Moving on, you will be guided through the NAV way of solving problems. You will be introduced to patterns and the software NAV architecture and will then build an example application. Then you will walk through the details of architectural patterns, design patterns, and implementation patterns and will also learn about anti-patterns and handling legacy code. You will learn how to build solutions using patterns. The course offers premium, highly practical content on this recently released version of Dynamics NAV and includes material from the following Packt books: *Implementing Microsoft Dynamics NAV Third Edition*, *Programming Microsoft Dynamics NAV Learning*, *Dynamics NAV Patterns*. Style and approach: This course is for Dynamics NAV partners, developers, consultants, and end users who want to know everything about Dynamics NAV implementations and development.

### **Assessment in Online and Blended Learning Environments**

Selma Koç, Xiongyi Liu, Patrick Wachira, 2015-03-01. Online and blended learning requires the reconstruction of instructor and learner roles, relations, and practices in many aspects. Assessment becomes an important issue in non-traditional learning environments. Assessment literacy, i.e., understanding assessment and assessment strategies, is critical for both instructors and students in creating online and blended environments that are effective for teaching and learning. Instructors need to identify and implement assessment strategies and methods appropriate to online or blended learning. This includes an understanding of the potential of a variety of technology tools for monitoring student learning and improving their teaching effectiveness. From the students' perspective, good assessment practices can show them what is important to learn and how they should approach learning, hence engaging them in goal-oriented and self-regulatory cognitions and behaviors. The book targets instructors, instructional designers, and educational leaders who are interested in understanding and implementing either summative or formative assessment in online and blended learning environments. This book will assist the relevant audience.

in the theory and practice of assessment in online and blended learning environments Providing both a research and practice perspective this book can help instructors make the connection between pedagogy and technology tools to maximize their teaching and student learning Among the questions addressed in this book are What assessment strategies can be used in online or blended learning How can instructors design effective assessment strategies What methods or technology tools can be used for assessment in online or blended learning How does peer assessment work in online or blended learning environments
