How can teachers use this knowledge to improve children's learning in school? What activities can teachers use with parents to help share the ways that schools teach mathematics? What can parents do to support their children's learning of mathematics? Tried and tested practical suggestions for activities to support and encourage children's learning of mathematics include making videos to share teaching methods, children taking photos to show how they use mathematics at home, inviting parents into school to share in mathematics learning and numeracy-based activities for children and their parents to do together at home.
