List this project's biggest successes.

<i>Description</i>	<i>Factors that Promoted this Success</i>
We have a more organized reporting structure.	The capabilities of BI allow for a more organized structure.
We were able to remove a lot of reports that weren't being used and we have reports that actually work.	A benefit of this project was time was taken to existing reports and to remove those reports that no were needed or did not work.
The tool will allow users to write their own reports and these can be modified on an ongoing basis.	BI allows more than just a few people to have the to create reports. There is no bottleneck like there was before when only one person knew and was able to reports that are needed. Now users can write their reports and reports can be modified on an ongoing

List areas of potential improvement along with *high-impact* improvement strategies:

<i>Category</i>	<i>Project Shortcoming</i>	<i>Lesson Learned</i>
Project Management	There are still questions around whether or not to still treat this as a project and let the team make decisions on how to move forward with operational monthly reports.	FM Leadership needs to determine if this project continue with a project in place. There needs focus on completing monthly reports.
