Interviewer: We spoke to some girls to find out their opinions about sport.

Speaker 1: I play tennis quite often, and it's a great form of exercise. It keeps me healthy. It's important to stay in shape and a good game of tennis really makes your body work. Everyone needs to find a way to get some exercise and for me, it's tennis.

Speaker 2: I'm not really very interested in most sport, but there is one I like – motor racing. Some people think it's boring to just watch cars going round and round, but I love it. It's really exciting, and it takes a lot of skill. I'd like to try it, but I think I'd be a bit frightened because they go very fast.

Speaker 3: We've tried a few different sports at school, and I really like playing volleyball. It's a great feeling when you know you've played better than the other team. You have to be quite fit to do it well. I'd like to play again, but none of my friends are interested. I think I need to find a team in my local area.

Speaker 4: I love going to football and basketball matches. I try to go every weekend, with my friends. What I like about those sports is that the players have to work together to be successful. You can be a fantastic player, but without the others, you're nothing.

Speaker 5: I like sport, but I don't really take it seriously. Winning and losing aren't very important to me, but spending time with my friends is. We get together every Saturday and play a different sport – football or baseball, usually. It's a lot of fun.

Tourist: Excuse me. I wonder if you could help me.

Guide: Of course. What would you like to know?

Tourist: Well, it's my first visit to the area and I was wondering what the main attractions are. I'm leaving for the airport at lunchtime tomorrow, so what would you recommend I see in the time I've got?

Guide: Well, one of the most popular attractions is Mansford Hall, a large old house about 10 miles outside town. It's a kind of museum and they've tried to show what life was really like three hundred years ago.

Tourist: Well, that sounds interesting. How long would it take?

Guide: It would probably take you about half an hour to get there by bus, maybe twenty minutes by taxi, and then a tour of the house would take about two or three hours.

Tourist: Hmm. I'm meeting a friend for dinner at a restaurant round the corner, so I was hoping to do

web here we use newton raphson and decoupled load flow method and determine the fault at various buses the variation of real and reactive power loss over buses also been determined keywords compensation jacobian distribution system decoupled load 1 introduction

load flow analysis of ieee14 bus system using matlab - Sep 25 2022

web jun 5 2013 this matlab program can be applicable for any number of buses the standard ieee 14 bus input data is used for ieee14bus system and sample 5 bus input data is used for 5 bus system the future scope for this project can be extended with newton raphson method and fast decoupled methods references

development of a power system simulation application using matlab - Oct 27 2022

web may 1 2019 abstract to develop an application in matlab which includes load flow analysis short circuit analysis power angle diagram for synchronous generator and economic dispatch this proposed project aims at writing codes in matlab m file for calculation of load flow analysis by newton raphson and gauss seidal methods

performance evaluation of islanded microgrid using load flow analysis - Dec 29 2022

web nov 2 2019 performance evaluation of islanded microgrid using load flow analysis technique abstract load flow lf analysis is an inextricable part of an in depth study on microgrid in this study ac load flow method was used in matlab environment to evaluate the performance of an islanded microgrid
