, November 2019 Monthly Current Affairs with MCQs for Competitive Exams Disha Experts, 2019-10-21 **Infinite Suburbia** MIT Norman B. Leventhal Center for Advanced Urbanism, 2018-03-13 Infinite Suburbia is the culmination of the MIT Norman B Leventhal Center for Advanced Urbanism's yearlong study of the future of suburban development Extensive research an exhibition and a conference at MIT's Media Lab this groundbreaking collection presents fifty two essays by seventy four authors from twenty different fields including but not limited to design architecture landscape planning history demographics social justice familial trends policy energy mobility health environment economics and applied and future technologies This exhaustive compilation is richly illustrated with a wealth of photography aerial drone shots drawings plans diagrams charts maps and archival materials making it the definitive statement on suburbia at the beginning of the twenty first century *The Trans Pacific Partnership, China and India* Amitendu Palit, 2014-06-05 The United States and 11 other countries from both sides of the Pacific are currently negotiating the Trans Pacific Partnership TPP The agreement is expected to set new benchmark for international trade through its comprehensive coverage of issues and binding regulations It is expected to eventually mature into a regional trade agreement covering the entire Asia Pacific As of now it does not include China and India the two largest emerging markets and regional economies The TPP has generated controversy for its excessive emphasis on trade issues which have remained unresolved or unaddressed at the WTO due to differences between developed and emerging markets It has also been criticized for adopting a negotiating style reflecting the US regulatory approach to international trade and also as a geo political strategy of the US for supporting its strategic rebalancing towards Asia From both economic and geo political perspectives the TPP has various significant implications for China and India that are examined in the book This book sheds light on how China and India's entries in the TPP are mutually beneficial and how both countries can gain from the TPP by gaining preferential access to large markets and using it as an opportunity for introducing more outward oriented reforms The book also cautions that US must reconcile to the rebalancing of economic power within the grouping that will occur following the entries of China and India Otherwise the TPP and China and India might walk divergent paths and trade and regional integration in Asia Pacific may not ever converge This book will interest anyone who wishes to learn more about the TPP and its future implications and challenges and China and India's roles in global and regional trade **Handbook on Complexity and Public Policy** Robert Geyer, Paul Cairney, 2015-05-29 Over recent years Complexity Science has revealed to us new limits to our possible knowledge and control in social cultural and economic systems Instead of supposing that past statistics and patterns will give us predictable outcomes for possible actions we now know the world is and will always be creative and surprising Continuous structural evolution within such systems may change the mechanisms descriptors problems and opportunities often negating policy aims We therefore need to redevelop our thinking about interventions policies and policy making moving perhaps to a humbler more learning approach

In this Handbook leading thinkers in multiple domains set out these new ideas and allow us to understand how these new ideas are changing policymaking and policies in this new era Peter M Allen Cranfield University UK **Southeastern Geographer** David M. Crowdfunding and Entrepreneurial Finance Richard Harrison, 2017-10-02 An increase in the restrictions on the availability of funding for new and growing businesses in the aftermath of the global financial crisis has been accompanied by the emergence and growth of crowdfunding as an alternative method of raising capital Crowdfunding contributes towards the disintermediation of the finance market as funders and promoters are brought together directly democratising both fundraising by businesses and investment by individuals This book extends entrepreneurial finance research to the study of crowdfunding Contributions review the history status and future of crowdfunding analyse the patterns of fundraising assess the potential of crowdfunding for the financing of social ventures in particular and discuss the regulatory implications of recent developments What is clear from this collection is that the crowdfunding space is still evolving institutional forms are still developing as models are refined new institutional collaborations e g between equity platforms and business angel networks are emerging and new challenges particularly regulatory challenges are being encountered While crowdfunding is not a universal solution for SME finance in a post crisis financial landscape it remains too early to determine whether crowdfunding represents a large scale transformation of the early stage risk capital market or a minor addition to it This book was originally published as a special issue of Venture Capital *Handbook on Water Security* Claudia Pahl-Wostl, Anik

Bhaduri,Joyeeta Gupta,2016-01-29 Water security has received increasing attention in the scientific and public policy communities in recent years The Handbook on Water Security is a much needed resource that helps the reader navigate between the differing interpretations of water security It explains the various dimensions of the topic by approaching it both conceptually and thematically as well as in relation to experiences in different regions of the world The international contributors explore the various perspectives on water security to show that it has multiple meanings that cannot easily be reconciled Topics discussed include challenges from human security to consumerism how trade policies can help to achieve water security in a transboundary setting the potential of risk based governance arrangements and the ecology of water security Scholars and postgraduate students in the social sciences working on water related issues will find this book to be of substantial interest It will strongly appeal to policymakers and practitioners looking at the strengths and limitations of water security

Accessibility, Equity and Efficiency Karst T. Geurs,Roberto Patuelli,Tomaz Ponce Dentinho,2016-02-26

Leading researchers from around the world show in this volume the importance of accessibility in contemporary issues such as rural depopulation investments in public services and public transport and transport infrastructure investments in Europe The trade offs between accessibility economic development and equity are comprehensively examined and a variety of approaches to measuring accessibility and equality presented The book s interdisciplinary contributions also provide different geographical contexts from the US to various European and developing countries and cover ex ante and ex post evaluation of transport investment Improving transport accessibility is a main objective in transport policy and planning in developed and developing countries all over the world Investment is motivated by the need to develop and or reduce spatial or social inequalities However the economic and equity implications of investments in transport are not straightforward The concepts of accessibility and equity can be defined and operationalized in many different ways influencing outcomes and conclusions Moreover equity and efficiency goals are often conflicting Accessibility models not only help to explain spatial and transport patterns in developed and developing countries but are also powerful tools to explain the equity and efficiency impacts of urban and transport policies and projects This state of the art overview of the accessibility economic efficiency equity relationship will appeal to researchers as well as transport and urban planners interested in accessibility issues and transport regional developments
