The great cause of global health is in Robert Proctor's debt Golden Holocaust is a model of impassioned scholarly research and advocacy As Proctor so powerfully demonstrates the time has come to hold the tobacco industry accountable for the massive disease debility and death that they produce around the world Allan M Brandt author of *The Cigarette Century* Robert Proctor unpacks the sad history of an industrial fraud His tightly reasoned exploration touches on all topics on which the tobacco makers lied repeatedly to Congress and the public Don Kennedy President Emeritus Stanford University and former Editor *Science* This book is a remarkable compendium of evil It will keep you spinning from page one through the last with a detailed description of how one of the most notorious industries in American history deceived and manipulated the public the politicians and the scientific community into allowing an age old toxin to be breathed directly into the lungs of millions of Americans It is the type of book that makes you wonder how in God's name this could have happened David Rosner author of *Deceit and Denial* Proctor powerfully documents how a small number of tobacco companies caused a tragic global epidemic His account of this history and of the lessons learned is relevant to the ongoing effort to end the tobacco epidemic and to efforts to control emerging pandemics of non communicable diseases Jonathan M Samet M D M S Director Institute for Global Health University of Southern California Proctor weaves together the public historical record with inside details and insights from thousands of once secret industry documents Anyone who cares about health deception science or politics will learn something new from this book Stanton A Glantz Professor of Medicine UC San Francisco and author of *The Cigarette Papers* A powerful indictment of the world's deadliest industry John R Seffrin PhD Chief Executive Officer American Cancer Society By carefully analyzing formerly secret industry documents Proctor has shown how cigarette manufacturers knew that the filters on virtually all cigarettes sold today are utterly fraudulent His call for a ban is likely to change how we think about such devices this excellent book is a must read for tobacco control and environmental activists alike Thomas E Novotny MD MPH Former US Assistant Surgeon General and CEO Cigarette Butt Pollution Project Scholarly yet eminently readable indeed gripping this book asks us to consider what the end game for tobacco might look like A must read for policy makers and public health officials and for anyone struggling against the tobacco industry in the field Professor Judith Mackay Senior Advisor World Lung Foundation Hong Kong China SAR The machine rolled cigarette is the single most deadly consumer product ever made Proctor's powerful witty and wide ranging book shows how we came to accept as normal the promotion and use of products that have caused a global epidemic of disease and death But more importantly he outlines a way to end this grim chapter in human history Ruth E Malone RN PhD FAAN Editor *Tobacco Control* This is the most important book on smoking in fifty years Proctor's unique mix of scholarship

readability wit and political understanding tells a no holds barred story with conclusions that governments cannot afford to ignore It will change the course of public health history Professor Mike Daube President Australian Council on Smoking and Health Proctor draws masterfully from a vast archive of documents wrested from the industry including many never before discussed and mounts an unforgettable case about what the tobacco industry has done and what we must do about it This is the book to help us understand what we must do to save lives Peter Galison author of Einstein s Clocks Poincar s Maps Golden Holocaust will stand indelibly as a landmark in the field of medicine and the history of science It is a monument of committed scholarship and cool passion making brilliant use of the new technics of data mining to reveal a terrible calculus while giving the lie to claims that advocacy must be the enemy of objectivity Lives far too many lives depend on what this book contains Iain Boal Birkbeck College London and Guggenheim Fellow in Science and Technology Robert Proctor draws an unvarnished conclusion that the tobacco industry and the men who led it were evil plain and simple They knowingly sold a product that when used as intended killed people And then they conspired to suppress the evidence Not everyone will agree with Proctor but anyone interested in the intertwined issues of science and health and culture and commerce needs to read this book Naomi Oreskes coauthor of Merchants of Doubt Robert Proctor lays bare the deliberate choices made by the tobacco companies to addict their customers and cause premature death Here is clarity to the unprecedented scientific fraud perpetrated by the tobacco industry William A Farone Ph D Chairman Applied Power Concepts Inc formerly Director of Scientific Research for Philip Morris USA 1977 1984 **Paperbound Books in Print** ,1992 **Research in Education** ,1974 **Title List of Documents Made Publicly Available** U.S. Nuclear Regulatory Commission,1986-11 **Nature** Sir Norman Lockyer,1899 **Subject Guide to Books in Print** ,1996 **The Athenaeum** ,1884 *Scientific and Technical Books and Serials in Print* ,1989 **American Journal of Physics** ,1992 *Gas World* ,1921 [Resources in Education](#) ,1996 **Daily Graphic** M.
