Attempt to reapply. If not successful, see #4 below.                                                                                                                                                                                                                                                                 |

Remove release liner and apply to existing Mat on wall. Mat is only 1/32" thick and second layer will not be noticeable.                                                                                                                                                                                                                                         |
| 5  | Mat applied flat to wall appears to have developed wrinkles.            | High humidity sometimes causes the disposable release liner to wrinkle. | The wrinkled release liner does not cause Mat to wrinkle and will not affect Mat's performance. Continue with installation instructions.                                                                                                                                                                                                                                                                                     |
| 6  | Cannot smooth out air bubbles under Mat.                                | Air was trapped behind the Mat during installation.                     | Use a utility knife to cut a slit in the center of the bubble. Use your hands or grout float to push air toward the slit from the edges of the bubble. If waterproofing is desired, cover slit with Seam Tape.                                                                                                                                                                                                               |
