

Preparing a Journal Article Critique

I. What is an article critique?

- A critical analysis of a study published in a peer-reviewed journal.

II. How do I format an article review?

- Format and organization of the critique varies according to the professor's preference. Review the assignment description in the course syllabus or ask the professor for formatting guidelines.

III. What does an article critique include?

A) A citation of the reviewed article in APA format

Example

Mithaug, D. E. & Mar, D. K. (1980). The relation between choosing and working prevocational tasks in two severely retarded young adults. *Journal of Applied Behavior Analysis*, 13, 177-182.

B) A one-paragraph summary of the article

- Fewer than 200 words
- Briefly describe experimental question (1 sentence)
- Provide concise description of the methods used (2-6 sentences)
- Discuss results/findings (2 sentences)

C) A description of the study's participants

- Include number of participants/sample size/number of groups used
- Provide diagnoses or pertinent characteristics of participants
- Briefly describe participant selection & assignment to condition(s)

D) Identification and description of the relationship between the independent and dependent variables within the study

- Define independent variable(s)
- Define dependent variable(s)
- Discuss if a functional relationship exists between the independent and dependent variables
- Discuss possible confounding variables within the study

E) A description of the research design

- Identify the design as a group- or single-subject study
- Describe the experimental design (e.g., ABA reversal design, alternating treatment design, or multiple baseline design)

F) Article strengths & weaknesses (Helpful questions to ask yourself while evaluating the article's 4 main sections)

The Psychology Student Writer's Manual and Reader's Guide Jill M. Scott, Gregory M. Scott, Stephen M.

Garrison, 2018-03-02 The Psychology Student Writer's Manual 3 E is a practical guide to research reading and writing in the discipline. Ideal as either a companion or stand alone text for any psychology course that requires students to write papers. This clear and functional handbook shows how to research and write in psychology as well as improve one's overall writing ability. Covering every fundamental aspect of writing from content to form, grammar, tracking sources of information and citing sources, it assists students in preparing two specific types of papers: research reports and term papers. Comprehensive source. Contains all the information needed to write most types of papers typically assigned in the discipline of psychology. Provides students with a complete, one-stop, easy-to-follow reference source on how to research and write papers, including how to conduct research in psychology, how to find information on topics related to psychology, how to incorporate citations, and more. Thorough review of writing basics and formatting instructions. Addresses fundamental concerns of all writers, exploring the reasons why we write, describing the writing process itself, and examining those elements of grammar, style, and punctuation that cause the most confusion among writers in general. Shows students the key elements of good writing and effective communication. Gives students a quick and handy grammar reference source and provides them with a detailed, easy-to-follow guide to preparing papers according to accepted formats. Creative writing assignments. Offers practical writing exercises with step-by-step instructions. Heightens students' interest in the study of psychology and frees professors from the duty of teaching students to write the papers most often assigned in psychology classes. APA standards. Complies with all APA style requirements; displays formats for text, title pages, reference pages, tables of contents in APA format; details the APA citation system and discusses the crucial responsibility of every psychology writer to use source material ethically. General analysis of psychology. Helps students obtain a deeper understanding of what constitutes the discipline of psychology so that they will become better and more educated writers on the subject.

Professional Writing in Speech-Language

Pathology and Audiology, Fourth Edition Robert Goldfarb, Yula C. Serpanos, 2023-11-29 With many more exercises, writing samples, and online resources, *Professional Writing in Speech-Language Pathology and Audiology, Fourth Edition* is an excellent resource for students of communication sciences and disorders. It is often used as a textbook for courses in professional writing, clinical methods, and professional issues. Throughout the text, the authors use anecdotal material, self-help questions, and humor to illustrate that learning to be a better professional writer does not require drudgery. The authors cover a spectrum of subjects related to professional writing, including rules of writing, review of grammar, spelling, punctuation, semantics, and sentence structure; evidence-based writing and citing sources; ethics related to professional writing; writing diagnostic and clinical reports; and writing for professional career advancement. New to the Fourth Edition: More exercises throughout the book; Incorporates APA 7th edition style; Reorganized for a greater flow of information.
