### Teacher Foreword:

This assessment was created based on Math Makes Sense Grade 5 (2005 Edition). However, the questions are more challenging than the ones that you see from Addison Wesley, that comes with the first Make sure you go through the student assessment booklet to see the type of critical and higher-level thinking in your student's expected answers, so that you can introduce the language that will be used in the grade 6 EQAO Assessments, therefore preparing your students for future success. I created the assessment for the 2 units because it saves time and works. You can also use this for the end of the year math review, supporting your students to be ready for the EQAO Assessments. *Summer Addition assessment program*
