#### 1. What is engineering drawing?

Engineering drawing is the process of creating a technical drawing of an object or system. This drawing can be used for manufacturing, construction, or other purposes. The drawing must be accurate and clear in order to be effective.

#### 2. Can you explain what orthographic projection is in the context of engineering drawing?

Orthographic projection is a type of drawing that is used to create two-dimensional representations of three-dimensional objects. This is done by projecting the three-dimensional object onto a two-dimensional plane. This can be helpful in engineering drawings because it can provide a more accurate representation of an object than a three-dimensional drawing.

#### 3. What are some common uses for engineering drawings?

Engineering drawings are used for a variety of purposes, including:
