

ABOUT THE PROJECT

The project entitled "GARMENT MANAGEMENT SYSTEM" has been developed for the computerization of garments purchasing process. The project helps to achieve high response time in purchasing system, ease of stock management and at last the most important advantage is the high productivity of employee.

The main modules in this project are

- Raw Material booking
- Classification of Raw Material
- Purchase of Raw Material
- Stock Maintenance
- Payment

The user operation is divided into two major groups as "Administrator" and "User".

The Users are having only limited rights in the system. They are allowed to access their allocated modules only. For example the user who is allocated to the stock department can't access the payment and others so it prevent the unwanted modifications.

The Administrator is fully authorized for all modification and system installations. Administrator fully control all users and their modules. He can able to modify the user access rights also.
