

The Gateway Experience

Congratulations!! You are embarking on an exciting and rewarding adventure. You are about to discover your ability to perceive, direct, and control your life in ways you never imagined possible. The Hemi-Sync process provides the tools. You supply the action.

Hemi-Sync® is a patented audio technology developed through 40 years of researching the influence of sound on human capabilities. Complex blends of Hemi-Sync sound frequencies facilitate different states of consciousness as you proceed through the Gateway Experience. There are no subliminal messages. You are in control.

Cultivate openness - Approach each exercise without expectations. Open yourself to the same childlike sense of wonder that characterized your first explorations of the physical world. Many people find it helpful to hold relaxation as their only goal, allowing them to notice and value subtle shifts in consciousness. Maintain awareness of your experience without judging and remember that you may perceive in different ways. Pay attention to **kinesthetic** sensations such as motion, tingling, or pulsing in your physical body. You may "see" lifelike or **symbolic images** in your mind's eye. **Auditory** perceptions may manifest as verbal messages, sounds, tones, or even music. Gateway participants often report **intuitive** perceptions of sudden comprehension, a knowing, a gestalt. There is no right or wrong way to experience these exercises. Allow yourself to appreciate and value the uniqueness of your own perceptions.

Recommendations for use - DO NOT LISTEN while driving. Use any standard quality stereo equipment with headphones in a distractionfree, darkened room where you can remain undisturbed for about 45 minutes. If exterior sounds penetrate, simply let them pass by. Do not use Dolby™ or other noise-reduction systems. Wait an hour after eating and use the bathroom before getting comfortable. Avoid alcohol, drugs, or excessive caffeine. Loosen tight clothing; remove shoes and glasses or contact lenses. Experiment with lying down or sitting with your head supported, to find out which you prefer. Adjust your position as needed: scratch an itch, pull up or remove a blanket when metabolic changes produce coolness or warmth.

Lower the volume so the words are barely within your hearing range. Otherwise the voice after a silent period may startle you. You may experience variations in the volume of the Hemi-Sync frequencies. These are intentional; do not readjust the volume.

Many people find that documenting their experiences in a journal is a fascinating method to reinforce learning and review progress. Try it. You may find it helpful to review the "frequently asked questions" (see below) from time to time as you move along.

Work with each exercise in sequence after you feel comfortable with the one(s) proceeding. The right pacing is different for each of us; there are no rules. You may listen to one exercise daily for a week or a month and then work at a slower or faster pace with others. Trust your intuition to know when you are ready to move on.

Gateway Experience Manual:

The gateway experience guidance manual Robert A. Monroe,1989 **The Computer Manual , Goddess Kali, God Thoughts, Sri Sri Ramakrishna and A Few Slices of Sri Sri Ramakrishna's Soul (Introducing 'SoulOlogy')** Dr. Siddhartha Ganguli,2024-05-11 Hinduism is a polytheistic religion For the Hindus Goddess Kali is the only austere down to earth deity who believes in absolute simplicity and openness She does not hide her body she is naked with her private parts covered by a garland of severed hands of demons slain by her Her mind is overt as she sticks out her tongue representing her thirst for the blood of evil people whom she is determined to overpower and also her feeling of shame Her soul yearns for pure and authentic love She is unlike other Hindu goddesses who are opulently dressed and majestically ornamented Kali s child God incarnate Sri Sri Ramakrishna like his mother goddess is casual not only about his dress but also about his worshipping habits This book looks at Ramakrishna his method of devotion his yearning for the goddess and his value system and entire philosophy It analyses the Hindu Saint s soul and its slices that he had shared and still continues to share even today long after he left this planet with those who understand him thoroughly and are meant to propagate his message The author s method of analysis and treatment of the subject are unique as no other Kali or Ramakrishna scholar had used for their probes earlier Experience Manual, with Work Sheets for Secretarial Efficiency ... The Verilog PLI Handbook Stuart Sutherland, 2006-04-18 by Maq Mannan President and CEO DSM Technologies Chairman of the IEEE 1364 Verilog Standards Group Past Chairman of Open Verilog International One of the major strengths of the Verilog language is the Programming Language Interface PLI which allows users and Verilog application developers to infinitely extend the capabilities of the Verilog language and the Verilog simulator In fact the overwhelming success of the Verilog language can be partly attributed to the existence of its PLI Using the PLI add on products such as graphical waveform displays or pre and post simulation analysis tools can be easily developed These products can then be used with any Verilog simulator that supports the Verilog PLI This ability to create third party add on products for Verilog simulators has created new markets and provided the Verilog user base with multiple sources of software tools Hardware design engineers can and should use the Verilog PLI to customize their Verilog simulation environment A Company that designs graphics chips for example may wish to see the simulation results of a new design in some custom graphical display The Verilog PLI makes it possible and even trivial to integrate custom software such as a graphical display program into a Verilog simulator The simulation results can then dynamically be displayed in the custom format during simulation And if the company uses Verilog simulators from multiple simulator vendors this integrated graphical display will work with all the simulators
