Elementary Mathematics Curriculum Materials Janine T. Remillard, Ok-Kyeong Kim, 2020-03-16 The book presents comparative analyses of five elementary mathematics curriculum programs used in the U S from three different perspectives the mathematical emphasis the pedagogical approaches and how authors communicate with teachers These perspectives comprise a framework for examining what curriculum materials are comprised of what is involved in reading and interpreting them and how curriculum authors can and do support teachers in this process Although the focus of the analysis is 5 programs used at a particular point in time this framework extends beyond these specific programs and illuminates the complexity of curriculum materials and their role in teaching in general Our analysis of the mathematical emphasis considers how the mathematics content is presented in each program in terms of sequencing the nature of mathematical tasks cognitive demand and ongoing practice and the way representations are used Our analysis of the pedagogical approach examines explicit and implicit messages about how students should interact with mathematics one another the teacher and the textbook around these mathematical ideas as well as the role of the teacher In order to examine how curriculum authors support teachers we analyze how they communicate with teachers and what they

communicate about including the underlying mathematics noticing student thinking and rationale for design elements The volume includes a chapter on curriculum design decisions based on interviews with curriculum authors **Essential Mathematics for the Australian Curriculum Year 9** David Greenwood,Sara Wooley,Jenny Vaughan,Franca Frank,Jenny Goodman,David Robertson,2011-04 Essential Mathematics For The Australian Curriculum Year 9 Essential Mathematics for the Australian Curriculum builds on established learning sequences and teaching methods to provide an authoritative and practical interpretation of all content strands sub strands and content descriptions It also covers essential prior knowledge and includes some extension topics The essential foundations of the series The three interconnected content strands are incorporated into 11 units of work that can be completed in the school year Let s Start activities provide context and foundation for topics Every question is grouped according to the four proficiency strands of the new Australian Curriculum Understanding Fluency Problem solving and Reasoning Problem solving and Reasoning questions are included in every exercise Enrichment questions in each exercise and investigations challenges and puzzles in every chapter reflect curriculum aims by extending students in depth Literacy and numeracy skills thinking skills creativity and ICT activities including dynamic geometry and calculator activities are incorporated and encouraged in every chapter *Simple Steps for Fourth Grade Thinking Kids*,Carson-Dellosa Publishing,2015-12-14 Simple Steps for Fourth Grade helps your child master math and language arts skills such as addition subtraction numbers multiplication division fractions decimals measurement geometry place value grammar punctuation capitalization usage and sentence structure A standards based resource that simplifies key concepts for easy understanding Simple Steps for Fourth Grade provides learners with easy to follow units clear explanations skill reinforcing activities and an answer key to check accuracy By preparing students for today s rigorous academic standards this comprehensive resource is ideal for supporting classroom learning and enhancing home school curriculum A unique workbook series that offers step by step guidance Simple Steps breaks down essential concepts so that learners can develop a deep understanding of both math and ELA skills for improved academic performance With Simple Steps for Fourth Grade your child is one step closer to complete school success *Everyday Mathematics* ,2004 Contains easy to follow three part daily lesson plans This assists teachers in focusing on lesson objectives providing ongoing practice for all students and addressing individual student needs for a variety of populations A unit organizer provides learning goals planning and assessment support content highlights a materials chart suggestions for problem solving cross curricular links and options for individualizing Each guide is grade level specific
