Bilingual Education and Minority Language Maintenance in China Lubei Zhang, Linda Tsung, 2019-01-10 This book looks closely at Yi bilingual education practice in the southwest of China from an educationalist's perspective and in doing so provides an insight toward our understanding of minority language maintenance and bilingual education implementation in China. The book provides an overview on the Yi people since 1949 their history society culture customs and languages. Adopting the theory of language ecology data was collected among different Yi groups and case studies were focused on Yi bilingual schools. By looking into the application of the Chinese government's multilingual language and education policy over the last 30 years with its underlying language ideology and practices the book reveals the de facto language policy by analyzing the language management at school level the linguistic landscape around the Yi community as well as the language attitude and cultural identities held by present Yi students teachers and parents. The book is relevant for anyone looking to more deeply understand bilingual education and language maintenance in today's global context. **Resources in**

Education, 1999-04 Handbook of Response to Intervention and Multi-Tiered Systems of Support Paige C. Pullen, Michael J. Kennedy, 2018-10-04 Of the many issues facing special education and general education today it is difficult to imagine one more important or timely than response to intervention RTI. Almost overnight RTI has become standard practice across the nation. Unfortunately RTI remains ill defined falls far short of its evidence based practice goal is almost invariably misused and often results in more harm than good. Nevertheless as a conceptual framework RTI has great potential for ensuring that students with disabilities receive appropriate evidence based instruction. The mission of this handbook is to present a comprehensive and integrated discussion of response to intervention RTI and its relation to multi tiered systems of support MTSS in both special education and general education. Although the two terms are currently used interchangeably distinct differences exist between them. Therefore chapters are dedicated to distinguishing the two concepts RTI and MTSS and describing each one's unique role in both general and special education. In addition the authors recommend a third term Multi Tiered Instruction to differentiate the practices related to the purpose of the specific intervention. **Everyday**
