

INSTRUCTION GUIDE FOR SUMMER AND FALL 2022 PLACEMENT

What is ALEKS Math Placement?

Math placement will be processed according to 1) scores, 2) scores, 3) credit transfer credits, and 4) equivalent course completion. If a student does not have any offerings in or credit for the mathematics course they wish to enroll in, their scores on either Placement Preparation or placement test will be used to determine placement. ALEKS Math is a web-based program that uses artificial intelligence to map a student's strengths and weaknesses. The Placement Preparation is up to 25 questions and generally takes 30-45 minutes to complete. After the Placement Assessment, an individualized three-week learning module is created for students to enhance their knowledge on topics they need. Students then have the opportunity to reassess and improve their placement.

1. Placement offers a path:

- to repeat Placement and attempt challenges and retake the placement.
- The Prep and Learning Modules (individualized, self-paced module system) designed to address Placement Assessment weaknesses.
