Juliane E. Kämmer,Margarete Boos ,Julia Carolin Seelandt,2024-06-24 Providing healthcare is a team endeavor Teams play
an important role along the full chain of patient care ranging from ad hoc emergency and anesthesia teams delivering
immediate care to tumor boards conferring on long term cancer treatment Thereby quality of patient care hinges on the
successful intra and interprofessional collaboration among healthcare professionals and sensitive partnering with patients
and their families In particular communication and coordination in healthcare teams have been found essential for team
performance and patient safety Yet effective teamwork is challenging especially in large hospitals where turnover rates are
high and for interdisciplinary and interprofessional ad hoc teams lacking the experience of constantly working together as a
team e g ICU emergency teams obstetrics or anesthesia Moreover healthcare teams deal with complex tasks have to make
risky and fast decisions under uncertainty and to adapt quickly to changing conditions Fostering research on how to promote
