Exploring the Planets Fred Taylor, 2016-02-26 The planets fascinate us and naturally we care about our own Earth and things like how well we can forecast the weather and whether climate is really changing Exploring the Planets offers a personal account on how the space programme evolved It begins in the era of the first blurry views of our Earth as seen from space and ends with current plans for sophisticated robots on places as near as our neighbours Venus and Mars and as far away as the rainy lakelands of Saturn's planet sized moon Titan Examining the scientific goals of these complex voyages of discovery and the joys and hardships of working to achieve them The Space Age is now about 50 years old and for those lucky enough to be part of it at its inception it's filled a worklong lifetime Today several satellites around the Earth have studied the atmosphere and the climate using instruments on board that the author helped design and build Deep space missions were embarked upon to visit the planets all of the major bodies six planets the Moon and minor bodies asteroids and comets of the classical Solar System have been scrutinised close up by experiments built in various laboratories worldwide Most of the narrative is based on the author's experiences at the world's space agencies research labs and conferences and at other places as diverse as Cape Canaveral and No 10 Downing Street

Oral ESL Test Anxiety with Emirati Secondary School Students Christopher Blake, 2016-11-07 Diploma Thesis from the year 2011 in the subject Psychology Intelligence and Learning Psychology grade none course MA IN TESOL language English abstract In the UAE and globally high stakes testing is prevalent in second language learning One important and integral part of high stakes English language tests is the oral proficiency interview which can be a pre requisite to gaining admission to an English speaking university The volunteer participants were 25 15 17 year old Emirati students from two IGCSE ESL classes that I do not teach This study included a

videotaped mock oral proficiency IGCSE interview audiotaped semi structured individual interviews questionnaires and an audiorecorded semi structured focus group discussion The findings suggested that language and test anxiety is multi faceted and can affect boys and girls in a number of different ways and at different times during class activities and also in an OPI In addition all participants showed different physical signs of test anxiety during the first two stages of the OPI and these physical signs of test anxiety were considerably less frequent in the final part of the OPI The causes and types of anxiety reported by the students ranged from language learning difficulties problems trying to retrieve appropriate English vocabulary code switching from Arabic language to English and vice versa differences in social status of the teachers language instructors and unfamiliarity with the interlocutor The pedagogical implications of these findings for understanding anxiety and oral test anxiety with second language students for teachers schools and examination boards are discussed as are suggestions for future research Furthermore considering the important role of teachers in second language pedagogy and the use of English as the main language of instruction this study also offers suggestions to lessen anxiety for oral class activities and oral assessments and presents test taking strategies
