Raspotnik, 2018-01-26 The Arctic is a region that has seen exponential growth as a space of geopolitical interest over the past decade. This insightful book is the first to analyse the European Union's Arctic policy endeavours of the early 21st Century from a critical geopolitical perspective. **When Blame Backfires** Anne Marie Baylouny, 2020-09-15 The recent influx of

Syrian refugees into Jordan and Lebanon has stimulated domestic political action against these countries' governments. This is the dramatic argument at the heart of Anne Marie Baylouny's *When Blame Backfires*. Baylouny examines the effects on Jordan and Lebanon of hosting huge numbers of Syrian refugees. How has the populace reacted to the real and perceived negative effects of the refugees? In thought-provoking analysis, Baylouny shows how the demographic changes that result from mass immigration put stress on existing problems in these two countries, worsening them to the point of affecting daily lives. One might expect that as a result, refugees and minorities would become the focus of citizen anger. But as *When Blame Backfires* demonstrates, this is not always the case. What Baylouny exposes instead is that many of the problems that might be associated with refugees are in fact endemic to the normal routine of citizens' lives. The refugee crisis exacerbated an already dire situation rather than created it, and Jordanians and Lebanese started to protest not only against the presence of refugees but against the incompetence and corruption of their own governments as well. From small-scale protests about goods and public services, citizens progressed to organized and formal national movements calling for economic change and rights to public services not previously provided. This dramatic shift in protest and political discontent, Baylouny shows, is the direct result of the arrival of Syrian refugees. **Unrivaled** Michael C. *Unrivaled* *America Ascendant* Stanley B. Greenberg, 2015-11-03 America is poised to lead the 21st Century as it led the 20th. That will happen because the country is at a tipping point in the battle for its own renewal, a renewal that will allow America to be exceptional again. Our economy is on the move, fueled by revolutions in energy, immigration, innovation, big data, and advanced manufacturing. America's energy independence has set off shockwaves. Just as important are the social

transformations that are making the country ever more racially and culturally diverse younger a home to immigrants and the metropolitan centers that foster a rising economic and cultural dynamism While most other countries struggle profoundly with immigration and religious and racial differences America s on a path to multicultural identity Those revolutions in the economy society and culture and are also producing a new American majority that embraces new values and new politics Republicans are waging a counter revolution and that is why America looks gridlocked and why the country is turning to Democrats to take on the country s growing challenges The economic and social transformations leave people struggling to earn enough and reach the middle class Families are under stress Government is corrupted by big money The American public is demanding the country address the dark side of our progress and reforms are starting to happen That is why Democrats will get to lead an era of reform and renewal comparable to the progressive era that mitigated the excesses of the Industrial Revolution In this incisive book expert strategist Greenberg draws on years of research and polling to illuminate how America is far from being gridlocked and he articulates a powerful vision of how American politics and America can be renewed

Brad Duncan, Martin Gibbs, 2015-05-25 This book explores the historical and archaeological evidence of the relationships between a coastal community and the shipwrecks that have occurred along the southern Australian shoreline over the last 160 years. It moves beyond a focus on shipwrecks as events and shows the short and long term economic, social and symbolic significance of wrecks and strandings to the people on the shoreline. This volume draws on extensive oral histories, documentary and archaeological research to examine the tensions within the community negotiating its way between its roles as shipwreck saviours and salvors. **The Blue Commons** Guy Standing, 2022-07-07 A FINANCIAL TIMES BEST ECONOMICS BOOK OF 2022. A landmark book, *The Blue Commons* is at once a brilliant synthesis, a searing analysis and an inspiring call to action. David Bollier. With remarkable erudition, passion and lyricism, Guy Standing commands the reader to wake up to the threat posed by rentier capitalism's violent policies for extraction, exploitation and depletion of that which is both common to us all but also vital to our survival: the sea and all within it. Ann Pettifor. Shines a bright light on the economy of the oceans, directing us brilliantly towards where a sustainable future lies. Danny Dorling. This is a powerful, visionary book, essential reading for all who yearn for a better world. Jason Hickel. The sea provides more than half the oxygen we breathe, food for billions of people and livelihoods for hundreds of millions. But giant corporations are plundering the world's oceans, aided by global finance and complicit states following the neoliberal maxim of Blue Growth. The situation is dire: rampant exploitation and corruption now drive all aspects of the ocean economy, destroying communities, intensifying inequalities and driving fish populations and other ocean life towards extinction. *The Blue Commons* is an urgent call for change from a campaigning economist responsible for some of the most innovative solutions to inequality of recent times. From large nations bullying smaller nations into giving up eco-friendly fishing policies to the profiteering by the Crown Estate in commandeering much of the British seabed, the scale of the global problem is synthesised here for the first time, as well as a toolkit for all of us to rise up and tackle it. The oceans have been left out of calls for a Green New Deal but must be at the centre of the fight against climate change. How do we do it? By building a Blue Commons alternative: a transformative worldview and new set of proposals that prioritise the historic rights of local communities, the wellbeing of all people and with it the health of our oceans.

**Bihar and Mithila** J. Albert Rorabacher, 2016-09-13 The world has become obsessed with the Western notions of progress, development and globalization, the latter a form of human and economic homogenization. These processes, through the aegis of the United Nations, are comparatively monitored. Those nations deemed to be lagging behind are then provided with foreign aid and developmental assistance. For nearly seventy years, India has sought its place in this global endeavour, yet even today, abject poverty and backwardness can be observed in districts in almost every state, with the highest concentration of such districts found in the state of Bihar and a cultural enclave known as Mithila. Development in India has

been elusive because it is difficult to define and because the Western concepts of development and progress have no absolute equivalents within many non Western settings As a consequence development programmes often fail because they are unable to ask the right questions but equally important is the political economy derived from foreign aid For politicians there is no long term benefit to be derived from successful development In general foreign aid only serves to corrupt governments and politicians and in the end does very little for those who need help The struggling states of Bihar and Mithila serve as extreme examples of India s problems Development here has been thwarted by a hereditary landed aristocracy supported by religion casteism custom social stratification tradition and patterns of behaviour that can be traced back millennia In turn all these have been masterfully manipulated by co opted politicians who have turned politics into a veritable art form as this volume comprehensively demonstrates

**Competing Visions of India in World Politics** K. Sullivan,2015-07-06 This edited collection presents an alternative set of reflections on India s contemporary global role by exploring a range of influential non Western state perspectives Through multiple case studies the contributors gauge the success of India s efforts to be seen as an alternative global power in the twenty first century

**New Directions in Agrarian Political Economy** Ryan Isakson,2017-10-02 How relevant are the classic theories of agrarian change in the contemporary context This volume explores this question by focusing upon the defining features of agrarian transformation in the 21st century the financialization of food and agriculture the blurring of rural and urban livelihoods through migration and other economic activities forest transition climate change rural indebtedness the co evolution of social policy and moral economies and changing property relations Combined the eleven contributions to this collection provide a broad overview of agrarian studies over the past four decades and identify the contemporary frontiers of agrarian political economy In this path breaking collection the authors show how new iterations of long evident processes continue to catch peasants and smallholders in the crosshairs of crises and how many manage to face these challenges developing new sources and sites of livelihood production This volume was published as part one of the special double issue celebrating the 40th anniversary of the Journal of Peasant Studies

**Georgetown Journal of International Affairs, Summer/Fall 2015** Mike Fox,Angela Ribaud,2015-07-31 The Georgetown Journal of International Affairs is the official publication of the Edmund A Walsh School of Foreign Service at Georgetown University Each issue of the journal provides readers with a diverse array of timely peer reviewed content penned by top policymakers business leaders and academic luminaries The theme of this issue will be a look at the United Nations past present and future to commemorate its 70th anniversary The secondary theme will be global development
