Class Activity

For this activity, this video explains the video: <https://www.youtube.com/watch?v=30mX4t8b3u0>

Students study following operations while watching the video. I'll give a few minutes for reflections about the video. Anytime, students can go back through video watching. You will discuss in class following the video and reflections.

1. What information was given to participants prior to the event?
2. What information was given to participants prior to the event?
3. What did you expect to happen in the participants' behavior if informed someone was given?

Afterward, students independently discuss and report the operations and what they learned about safety issues. They can be given a few minutes to do this at the end of the class.

End The Day

For the remainder of the day, students can participate in the end of the day activities.

During the independent study time, I'll give a few suggestions on how to use the video.
