

NEKTA MANAGEMENT SYSTEM

Nekta is a company that deals with beekeeping and selling of honey. The company offers the following services:

- selling of beehives and associated accessories to bee farmers;
- setting up of the beehives for the bee farmers;
- offering of training on beekeeping;
- buying of honey-related products from farmers for resale.

The company sells beekeeping accessories in three packages namely: single hive, mini package and full package as per the following descriptions:

- A single hive is one beehive and its associated accessories for setting up.
- A mini package consists of six beehives, harvesting accessories, beehive setting up and training for one person for one day.
- A full package consists of twelve beehives and a honey extractor. It also includes training for two people for one day and honey harvesting kit for two people.

The cost of each of the packages is as shown in **Table 1**:

Table 1: Cost of the Packages

Package	Cost per package (KSh)
Single hive	15,000
Mini package	120,000
Full package	190,000

Other services offered by the company are:

- training at a cost of KSh 7,000 per person;
- sale of accessories at KSh 2,500 per unit;
- sale of honey harvesting kits at KSh 600 per unit;
- sale of honey extractors at KSh 13,000 per unit.

The company also buys honey from farmers at KSh 900 per kg and bee products at KSh 1,200 per kg, for further processing and subsequent sales to consumers. A farmer whose sales is below KSh 20,000 is paid in cash, while sales between KSh 20,000 and KSh 80,000 are paid by mobile money transfer. Any sales exceeding KSh 80,000 are paid via Electronic Funds Transfer (EFT).

Wood, Shirley Ward Watkins, Ira W. Cotton, 1976 **The Handbook of Market Design** Nir Vulkan, Alvin E. Roth, Zvika Neeman, 2013-08-29 Economists often look at markets as given and try to make predictions about who will do what and what will happen in these markets Market design by contrast does not take markets as given instead it combines insights from economic and game theory together with common sense and lessons learned from empirical work and experimental analysis to aid in the design and implementation of actual markets In recent years the field has grown dramatically partially because of the successful wave of spectrum auctions in the US and in Europe which have been designed by a number of prominent economists and partially because of the increase use of the Internet as the platform over which markets are designed and run There is now a large number of applications and a growing theoretical literature The Handbook of Market Design brings together the latest research from leading experts to provide a comprehensive description of applied market design over the last two decades In particular it surveys matching markets

environments where there is a need to match large two sided populations to one another such as medical residents and hospitals law clerks and judges or patients and kidney donors It also examines a number of applications related to electronic markets e commerce and the effect of the Internet on competition between exchanges *Toward Distant Suns* T. other programming languages In typed lambda calculi lambda terms are classified according to their applicative behavior In the 1960s it was discovered that the types of typed lambda calculi are in fact appearances of logical propositions Thus there are two possible views of typed lambda calculi as models of computation where terms are viewed as programs in a typed programming language as logical theories where the types are viewed as propositions and the terms as proofs The practical spin off from these studies are functional programming languages which are mathematically more succinct than imperative programs systems for automated proof checking based on lambda calculi This volume is the proceedings of TLCA 93 the first international conference on Typed Lambda Calculi and Applications organized by the Department of Philosophy of Utrecht University It includes 29 papers selected from 51 submissions *Current Catalog* National Library of Medicine (U.S.), 1968 First multi year cumulation covers six years 1965-70 *Journal of Research of the National Bureau of Standards*, 1973
