- Describe what physical property Felix can use to separate a bag of nails he found in his mothers garage. The mix of nails are the same size, shape, and color.  
Felix can use the property of magnetism to separate the nails made with iron from those made with other metals. Those nails made with iron will attract the magnet and the other nails will not.
- Describe how Johanne can separate the sand, small shell pieces, and whole shells she collected from the beach over the weekend.  
Johanne can separate the whole shells from the mixture with her hands because of the size; the whole shells are larger than the sand and small shell pieces. She can use a filter (sieve) with small holes to separate the sand from the shell pieces.
- Your neighbour is hungry and wants to eat dinner right away. He decides to make a pitcher of tea. What can he do to make the sugar dissolve faster so that the tea will be ready sooner?  
My neighbor could use warm or hot water to make the ice tea. If warm or hot water is used, it will increase the rate at which the sugar will dissolve in the water.
