**Practice Profiles in Orthopaedic Sports Medicine**, 2002      **Commercial Law and Commercial Practice** Sarah Worthington, 2003-12-19 This edited collection brings together leading scholars and practitioners from various jurisdictions with essays and commentaries co-ordinated around the theme of alignments and misalignments between commercial law and commercial practice. The purpose of the book is to prompt a more critical and constructive reassessment of current commercial law and its practices and to instigate a more fruitful dialogue between academics, judges, law reformers and practitioners. The result is a series of provocative and challenging essays addressing an enormous range of problems that are of intimate concern to commercial practice. Some essays focus on broad themes such as globalization and trust. Others address more specific issues such as contract interpretation or constraining modern management. Yet another group targets special problems such as dematerialisation or super priority in order to assess the success of commercial law in meeting commercial demands. The depth and breadth of issues addressed is a credit to the authors. Taken as a whole, the volume makes some pointed suggestions for improving the practices and processes and indeed the future progress of commercial law.
