

Energy Storage and Transfer Model Worksheet 3: Quantitative Energy Calculations & Energy Conservation

Remembered in this section what you learned in the previous section:

1. I know how to calculate energy stored in stretching an ideal spring for a given force F and a given initial energy E .

2. I know how to calculate energy stored in a spring when I know the displacement of the spring with respect to the "equilibrium" position of the spring.

3. I know how to calculate the gravitational energy of a given "leg" physics student at a distance d that either is above or below a chosen reference elevation.

Remembered in this section what you learned in the previous section:

4. I know how to calculate the energy of a spring, given the force

5. A physics student stretches an ideal spring and then springs back to its original length. How much energy is stored in the spring?

6. I know how to calculate the gravitational energy for a physics student for a given set of initial and final energy values.

7. I know how to calculate the energy stored in a spring if I know the displacement of the spring. The spring constant is given in the table below (Table 1).
